ABSTRACT

Rythu Bazaar, the farmers' market was a social initiative started by the government of Andhra Pradesh in 1999. The main aim of Rythu Bazaar is to help farmers bring and sell their produce directly to consumers without the involvement of middlemen. Andhra Pradesh is the second largest producer of fruits, vegetables and flowers in the country but the farmers do not really benefit as the marketing system for fruits and vegetables is mostly in the hands of middlemen. Middlemen exist at various levels between the farmer and the consumer and exploit through malpractices in weighing, handling and payments. The farmers' share in the consumers' rupee is estimated to be just 40 paise. In addition the estimated loss in handling of vegetables in the traditional channel of marketing is about 30 to 35 percent. Rythu Bazaars were established to address these issues. Against this backdrop, this research attempts to look at the various parameters where the farmers have got benefitted since operating from these market yards.

Keywords: Farmers' market, Rythu Bazaars, hypotheses, binomial statistical test, middlemen.

1. Introduction

Rythu Bazaars – the farmers' markets of Andhra Pradesh were established in 1999 by the then government of Mr. Chandrababu Naidu to provide a platform to the farmers' to directly sell their produce without the help of any intermediaries. Since these markets have been operational for over a decade now, a need was felt to see whether the farmers have benefitted from these markets, and if so, in what parameters have they got benefitted.

1.1 Literature review

A study conducted by Kezis et al. (1995) on consumers at a small farmers' market in Maine indicates that the number of older, high income, high educated is increasing. Since these consumers are more likely to be attracted to farmers market, the popularity of this format is seen to be increasing. Onianwa et al., (2005) analyzed the determinants of Farmer-to-Consumer direct-market shoppers and provided insights into the factors that affect shopping at a farmer-to-consumer direct market.

Wolf (1997) in a case study examined responses of consumers with the objective of comparing the profile of farmers' market shoppers to those who do not shop at farmers' markets. Consumers have indicated that quality and value are among the most important attributes when purchasing produce while the major reason for not shopping at farmers'

edited work attempts to make sense of recent developments in the field of Human Resource Management in the People's Republic of China. It attempts to see how the paradoxes and contradictions engendered by contemporary Chinese society are being resolved in the enterprises and workplaces of the Middle Kingdom. The book starts with an overview of the literature then follows with a selection of micro-oriented concerns with topics like recruitment and retention then macro-oriented empirical studies a number of the latter dealing with strategic as well as performance issues with last those comparing sets of societal cultural values. It attempts a synthesis of what has emerged from recent research on the harmonious society. These contributions from authors based in universities in eight countries in Australia, Canada, China, Hong Kong, Japan, Taiwan, United Kingdom and USA cover a wide range of research on HRM from the micro to the macro. Six of them teach and/or research at campuses on the Mainland. Their empirical field-based research covers the last half decade and presents a robust picture of both what practitioners have adopted and how researchers have tried to make sense of what they have investigated. This book was based on a special issue of *Intl Journal of Human Resource Management* *Handbook of Research on Management and Strategies for Digital Enterprise Transformation* Sandhu, Kamaljeet, 2021-04-02. From traditional brick and mortar to new start-ups businesses are harnessing the power of digital enterprise as a cost-effective model to deliver goods and services online. Digital enterprise strategy is adopted for transforming business streamlining processes and making the best use of online technologies to enhance interaction with customers and employees and deliver excellent customer experience in real time. Digital enterprises increasingly need digital workers to establish greater digital skills to bear on every activity and to drive management strategy and innovation which are key for digital enterprise transformation. The *Handbook of Research on Management and Strategies for Digital Enterprise Transformation* is a crucial reference source that discusses leveraging technology for the customers, employees and suppliers benefit as well as integrating complex processes to management, marketing, production, manufacturing and financial systems. Combining management strategy, technology and digital enterprise topics into one book provides the reader with a holistic understanding of the new developments in these emerging fields. This study will also include key topics of interest on how to address structural changes underway in the local and global business environment for digital enterprise transformation. Featuring research on topics such as e-commerce, organizational learning and agile management, this book is ideally designed for business professionals, policymakers, researchers, students and managers. *Gale Directory of Publications & Broadcast Media* 142 V3, 2007-07 *Fulltext Sources Online*, 2007 ***Asian Journal of Environmental Management***, 1997 *Current Serials Received* British Library.
