

Katz and Fodor (1963)

- an early attempt to characterise what is required of a semantic theory
- “semantics takes over the explanation of the speaker's ability to produce and understand new sentences at the point where grammar leaves off” (p. 172-3)
- K&F argued that syntax and phonology alone cannot give a full account of a speaker's knowledge of language
 - e.g. the sentences *the man bit the dog* and *the dog bit the man* are **structurally identical**, but differ in meaning
 - (NB: K&F assume that syntax has no bearing on meaning as such)

The Linguistics Encyclopedia Kirsten Malmkjær, 2002 This thoroughly revised and updated volume offers comprehensive coverage of the major and subsidiary fields of linguistic study Semiotic Principles in Semantic Theory Neal R. Norrick, 1981-01-01 This study represents a contribution to the theory of meaning in natural language It proposes a semantic theory containing a set of regular relational principles These principles enable semantic theory to describe connections from the lexical reading of a word to its figurative contextual reading from one variant reading of a polysemous lexical item to another from the idiomatic to its literal reading or to the literal reading s of one or more of its component lexical items Semiotic theory provides a foundation by supplying principles defining motivated expression content relations for signs generally The author argues that regular semantic relational principles must derive from such semiotic principles to ensure the psychological reality and generality of the semantic principles **Outline of a semantic theory of Kernel sentences** Emanuel Vasiliu, 2018-02-19 No detailed description available for Outline of a semantic theory of Kernel sentences Semantic Theory Jerrold J. background information These matters are dealt with in detail The second task of a theory of linguistic meaning is to identify what meaning is to explain the relationships between sense and denotation and to explicate the nature of meaningful properties and meaning relations These matters are fully covered and the work concludes with a summary of the principle arguments presented
