Identifying Complements

Identify each italicized word in the following paragraphs as a *direct object*, an *indirect object*, a *predicate nominative*, or a *predicate adjective*.

EXAMPLES I enjoy [1] *cooking*, but it can be hard [2] *work*.

1. *cooking*—direct object

2. *work*—predicate nominative

My dad has been giving [1] *me* cooking [2] *lessons* since last summer. At first, I was [3] *reluctant* to tell the guys because some of them think that cooking is a girl's [4] *job*. Dad told me to remind them that we guys eat [5] *meals* just as often as girls do. He also said that cooking is an excellent [6] *way* for us to do our share of the work around the house.

When I began, I could hardly boil [7] *water* without fouling up, but Dad remained [8] *patient* and showed [9] *me* the correct and easiest ways to do things. For example, did you know that water will boil faster if it has a little [10] *salt* in it or that corn-starch can be an excellent thickening [11] *agent* in everything from batter to gravy?

My first attempts tasted [12] *awful*, but gradually I've become a fairly good [13] *cook*. My best main dish is chicken [14] *stew*. Although stew doesn't require the highest [15] *grade* of chicken,

Chapter 4 Complements Pages 79 Recognizing Complements

Dimitrios Morikis, John D. Lambris

Chapter 4 Complements Pages 79 Recognizing Complements:

Structural Biology of the Complement System Dimitrios Morikis, John D. Lambris, 2005-03-29 Of recent the structure of the complement system has received considerable attention including the publication of several three dimensional structures of complement proteins This has led to the need for an authoritative resource to provide a complete overview of the basics as well as an explanation of the cutting edge work being accomplished in this emerging science Structural Biology of the Complement System is devoted to the full exploration of structural aspects of the complement system with special consideration of the links between molecular structure and function Containing the work of leading authorities across the disciplines of immunology and structural biology the book serves both as an introductory volume for newcomers to the field and as a comprehensive reference for established researchers in particular those whose goal is the discovery of anticomplement drugs Written in a didactic style this volume is an appropriate resource for students in the fields of immunology and structural biology Structural Biology of the Complement System comes with downloadable resources containing color figures a molecular structure visualization program and files with three dimensional coordinates of the structures described in the book These tools allow readers to perform tailored structural manipulation and analysis while also serving as a starting point for further research

Design and Analysis of Accelerated Tests for Mission Critical Reliability Michael J. LuValle, Bruce G. LeFevre, Sir Raman Kannan, 2004-04-27 Early approaches to accelerated testing were based on the assumption that there was a simple acceleration factor that would correspond to a linear scaling of time from the operating stress to the accelerating stress This corresponds to the simplest physical model of the kinetics governing the underlying degradation but this simple model does not
