Transnational Popular Psychology and the Global Self-Help Industry Daniel Nehring, Emmanuel Alvarado, Eric C. Hendriks, Dylan Kerrigan, 2016-04-08 Self-help books aim to empower their readers and deliver happiness and personal fulfilment but do they really live up to this? This book offers a fresh perspective on self-help culture and popular psychology. Research on this subject matter has generally focused on the USA and the Global North. In contrast, this book explores the production, circulation and consumption of self-help books from an innovative transnational perspective. Case studies on Trinidad, Mexico, the People's Republic of China, the UK and the USA explore the roles which self-help's therapeutic narratives of self and social relationships play in the contemporary world. In this context, the book questions the extent to which self-help fulfils its promise of individual autonomy and contentment. At the same time, it addresses debates about contemporary political change under transnational processes of cultural standardization.

A Post-Neoliberal Era in Latin America? Daniel Nehring, Gerardo Gómez Michel, Magdalena López, 2019-02-27 Available Open Access under CC BY-NC licence.

Ongoing conflicts between neoliberal and post-neoliberal politics have resulted in growing social instability in Latin America. This book explores the cultural dynamics of neoliberalism and anti-neoliberal resistance in Latin America as a complex set of interrelated cultural forms, examining the ways in which neoliberalism has transformed public discourses of self and social relationships, popular cultures and modes of everyday experience. Contributors from an international range of different disciplinary perspectives look at how Latin Americans construct subjectivities, build communities and make meaning in their everyday lives in order to analyse the discourses and cultural practices through which a societal consensus for the pursuit of neoliberal politics may be established, defended and contested.

organises their everyday experiences of intimate life It argues that the proliferation of self help media contributes to the psychologisation of intimate relationships and obscures the social dimensions of intimacy in terms of gender race ethnicity and other social structures and inequalities At the same time the book draws on anthropological arguments about the colonisation of consciousness in the Global South to interpret the insertion of transnationally mobile popular psychology into Trinidadian society An innovative contribution to scholarship on therapeutic cultures which explores the widely under researched dissemination of popular psychology in the Global South the book adds to a sociological understanding of the ways in which therapeutic narratives of self and intimate relationships come to be incorporated into everyday experience As such it will appeal to scholars of cultural studies anthropology and the sociology of gender sexuality families and personal life

Hendriks, 2017-07-03 In *Life Advice from Below* Eric C Hendriks offers the first systematic comparative study of the globalization of American style self help culture and the cultural conflicts this creates in different national contexts The self help guru is an archetypical American figure associated with individualism materialism and the American Dream Nonetheless the self help industry is spreading globally thriving in China and other seemingly unlikely places Controversy follows in its wake as the self help industry operating outside of formal education and state institutions outflanks philosophical religious and political elites who have their own visions of the Good Life Through a comparison of Germany and China Hendriks analyzes how the competition between self help gurus and institutional authorities unfolds under radically different politico cultural regimes This witty book charms its way through a very serious sociology of the seriously quirky field of self help books Read it for its fascinating pop culture insights and you ll come away with a deep understanding of contemporary sociological theory Highly recommended Salvatore Babones University of Sydney Hendriks finding that Germany rather than China is more resistant to self help gurus offers a powerful corrective to the assumption in much of the globalization literature that the greatest cultural divide is between the Anglo Western European sphere and the rest of the globe Rodney Benson New York University *Reference Librarianship* Peter Sprenkle, Charles R Anderson, 2013-04-03 A daily diary of actual interactions between a reference desk librarian and his patrons *Reference Librarianship* documents a year in the life
