Designing Performance Measurement Systems Fiorenzo Franceschini, Maurizio Galetto, Domenico Maisano, 2018-12-07. Given our rapidly changing world, companies are virtually forced to engage in continuous performance monitoring. This book describes in detail the main characteristics of performance measurement systems and summarizes practical methods for defining KPIs, combining theoretical and practical aspects. These descriptions are supported by a wealth of practical examples. The book is intended for all academics, professionals and consultants involved in the analysis and management of KPIs.
