Part Two – Introduction to Land Law

Brief History and Politics of Land Law (Land law as a mixture of the feudal and the modern)

- 1066 Invasion. Crown title, feudalism, and enclosure of common land

After 1066 the king held all of the lands, people were tenants of the king in return for enjoyment of the land people had to do things for king (tenure).

- While feudalism had disappeared by the 16th century, the doctrine of tenure and estates maintain the fiction of Crown title.
- The end of doctrine of tenure, replaced by scutage.
- Market transformation of land and Industrial Revolution
- Place of women in property (and even as property at times!)

Recognising the difference between a 'property' right and a 'personal' right - Rights *in rem* mean: "a right into the matter of something." Rights *in personam* are personal rights for example to damages but not a right to property.

Land Law – primarily about rights *in rem*. But can involve a *right in personam*, which is a right to sue another person that may stem from a property right, contract or tort law.

- a) Land- any tenure, mines, minerals, buildings (in any way) etc. the same as corporeal (anything physical on the land) and incorporeal hereditaments (cannot be seen, however is the things such an enjoyment of land, etc). [by LPA 1925]

Definition of our status in relation to land and other users:

Law of Property Act 1925 (henceforth "LPA 1925") s 205(1)(ix) – provides a definition of what is included in the category 'land'

LPA 1925 s 205(1)(x) – "interests and charges, in or over land (subsisting or created at law) which are by this Act authorised to subsist or to be created as legal estates; "equitable interests" mean all the other interests and charges in or over land; an equitable interest "capable of subsisting as a legal estate" means such as could validly subsist or be created as a legal estate under this Act"

ESTATE, INTEREST, LAW, EQUITY

An estate is a snapshot of every right in relation to a particular piece of land at a particular time. A tenant on land does not enjoy the land itself, but what is called an **estate in the land**. Over time this became two estates:

- Fee simple absolute *in possession* (**Freehold**) LPA 1925 s 1(1)(a) absolute ownerships
- Term of years absolute, life estate back in time (**Leasehold**) LPA 1925 s 1(1)(b) timed ownership, fe only for 2 years

Wijffels,1999-01-01 The essays in this text deal with aspects of British legal learning It traces the tradition of learning dating back to the Middle Ages and how the inns of court provided the equivalent of a legal university The essays describe how before the middle of the 19th century there was little formal provision of legal education in Britain and that law in the ancient universities was not intended to have practical value and entrance to the bar was not dependent upon written examination

The Idea of Authorship in Copyright Lior Zemer,2017-03-02 As information flows become increasingly ubiquitous in our post digital environment the challenges to traditional concepts of intellectual property and the practices deriving from them are immense The romantic understanding of the lone author as an endless source of new creations has to face these challenges In order to do so this work presents a collectivist model of intellectual property rights The core argument is that since copyright works enjoy profit from significant public contribution they should not be privately owned but considered to be a joint enterprise made real by both the public and author It is argued that every copyright work depends on and is reflective of the author s exposure to externalities such as language culture and the various social events and processes that occur in the public domain therefore copyright works should not be regarded as exclusive private property The study takes its organizing principle from John Locke defining and proving the fatal flaw inherent in debates on copyright on the one hand the copyright community is eager to arm authors with a robust property right over their creation while on the other this community totally ignores the fact that the exposure of the individual to externalities is what makes him or her capable of creating material that is copyrightable Just as Locke was against the absolute authority of kings the expressed view of the study is against the exclusive right an author can claim **The National Cyclopaedia of American Biography** ,1918
