Mini Farming Aaron Turner,2017-07-15 Most people have never even heard of mini farming The reason It s really just not that popular as of yet But just like a lot of other things bell bottom jeans Mohawks and rap music it s coming into its own The reason is that regular farming is starting to become a problem for a lot of people It s just so difficult to make a living as a full fledged farmer because there s so much work involved and not enough demand for it The big time farmers the ones that once were able to sustain large farms and take care of their entire family

are having trouble making ends meet Part of the reason for that is mini farming but most of it is the lack of business available in larger markets Major farmers are trying to compete with other major farmers for markets like grocery stores and that s a really difficult market to break into If you start mini farming however the only people you re going to be competing against are the other local farmers in your area What you ll usually find is that there s plenty of people looking for locally grown products and not quite enough people who are selling them So this can actually be a pretty profitable niche for you Five Acres and Independence - A Practical Guide to the Selection and Management of the Small Farm Maurice G.
