21st Century Strategic Management Accounting and Performance Measurement Systems Prem Lal Joshi, Tariq H. Ismail, 2022-10-31

The world's economy has suffered like never before first by COVID 19 and then by the Russia Ukraine war

In such a difficult time the role of Management Accounting and Performance Measurement Systems increases because the organizations have to quest for alternative cost management practices in order to reduce and control costs and improve profitability

Organizations in the 21st century have been witnessing rapid changes in expanded regulatory requirements and technological advances

These changes also impact accounting it is essential to understand how Management Accounting and Performance Evaluation Systems are transforming locally and globally in order to reap proper opportunities

Environmental factors and organizational factors are believed to be an underpinning theory for challenges faced by management accountants in the 21st century

Needless to state that the role of Management Accounting and Performance Measurement Systems has been transforming the structure and processes of organizations and its acceptability has increased among internal stakeholders in improving the organizations decision making processes and performance

This important subject has been embracing new avenues taking place both in theory and practice in view of emerging technologies

The usage of data analytics by accountants to support value creation is increasing

As a part of ethical practices and corporate social responsibility CSR organizations are obliged to report on incurring their environmental costs for mitigating the effects of pollution climatic change waste disposal energy and fuel consumption

Transformation in management accounting and control practices adoption of innovative techniques such as activity based costing and management target costing performance measurement systems etc particularly in the context of developing countries need

to be researched in the twenty first century in order to enhance our knowledge base in the context of competitive advantages of Management Accounting Value based management VBM helps in making decisions that are helpful for the long term financial performance Target Costing TC enforces the management to transform their ways of thinking regarding the relation between product cost selling price and profitability in the organizations Enterprise Risk Management ERM is to prepare a firm wide strategy to identify and manage overall risks in all operational areas Justifying investments with the capital budgeting process is of high importance for future growth and profitability for any organization In this context the cognitive heuristics and attendant biases that are likely to colour judgments pertaining to the selection and post audit stages of investment decisions need to be considered *Certificate in Management Accounting Review* Grant W.
