Hoover, 2004 For some twenty five years after the end of the Second World War the IS LM model dominated macroeconomics Inspired by the work of John Maynard Keynes this model demonstrates the relationship among savings income investments and interest rates showing the point at which the interaction of these elements produces equilibrium in an economy With the advent of the new classical macroeconomics in the early 1970s the dominance of the IS LM model was effectively challenged While no longer central to the graduate training of most macroeconomists or to cutting edge macroeconomic research the IS LM model continues to be a mainstay of undergraduate textbooks to find wide use in applied macroeconomics and to lie at the conceptual core of most government and commercial macroeconometric models This volume the annual supplement to History of Political Economy explores the rise the fall and the persistence of the IS LM model In addition to presenting papers from the History of Political Economy conference held at Duke University in April 2003 the volume includes the text of an address delivered at the conference by Nobel laureate Robert E Lucas Jr one of the central players in the intellectual movement that dethroned the IS LM model Contributors Roger E Backhouse Mauro Boianovsky Michael Bordo David
