Handbook Of Language Ethnic Identity:

Handbook of Language and Ethnic Identity Joshua A. Fishman, 1999-04 Since the ethnic revival of the last twenty years there has been a substantial and interdisciplinary change in our understanding of the link between these fundamental aspects of our identity Handbook of Language & Ethnic Identity Joshua A. Fishman, Ofelia García, 2010 *Handbook of Language & Ethnic Identity* Joshua A. Fishman, 1999 **Handbook of Language and Ethnic Identity** Emeritus at Yeshiva University Joshua A. Fishman Distinguished University Research Professor of Social Sciences, 1999-03-08 This volume presents a comprehensive introduction to the connection between language and ethnicity Since the ethnic revival of the last twenty years there has been a substantial and interdisciplinary change in our understanding of the connection between these fundamental aspects of our identity The distinguished sociolinguist Joshua Fishman has commissioned over 25 previously unpublished papers on every facet of the subject The volume is divided into two sections the first examining disciplinary perspectives on the subject the second uses the prism of geography looking at the subject in the context of Africa Scandinavia Germany and the rest of Western Europe North America and elsewhere The volume is truly interdisciplinary and the contributors are all distinguished figures in their fields Each chapter is followed by thought provoking questions and essential bibliography and Fishman pulls together the various views that have been expressed and shows how they differ and how they are alike The volume is useful as a scholarly reference a resource for the lay reader and can also be used as a text in ethnicity courses *Handbook of Language & Ethnic Identity* Joshua A. Fishman, Ofelia García, Oxford University Press, 2010 This volume presents a comprehensive introduction to the connection between language and ethnicity

Bilingualism and Identity Mercedes Niño-Murcia, Jason Rothman, 2008 Sociolinguists have been pursuing connections between language and identity for several decades But how are language and identity related in bilingualism and multilingualism Mobilizing the most current methodology this collection presents new research on language identity and bilingualism in three regions where Spanish coexists with other languages The cases are Spanish English contact in the United States Spanish indigenous language contact in Latin America and Spanish regional language contact in Spain This is the first comparativist book to examine language and identity construction among bi or multilingual speakers while keeping one of the languages constant The sociolinguistic standing of Spanish varies among the three regions depending whether or not it is a language of prestige Comparisons therefore afford a strong constructivist perspective on how linguistic ideologies affect bi multilingual identity formation **Language, Ethnic Identity and the State** William Safran, J.A.

Laponce, 2014-02-04 This new study powerfully asserts the pivotal importance of the interplay between language and ethnicity which is often underestimated as a component for political stability These leading scholars present five key case studies of South Africa Algeria Canada Latvia and Senegal All five countries are multilingual nations where language has been a central political issue that has challenged their unity and stability These studies are underpinned by two general

comparative and theoretical discussions which analyse how scholars consider social class and economic factors to be the primary sources for political cohesion or of malcontent with the system and the new avenues opened by a focus on issues of language. This book will be of great interest to all students and scholars of linguistics, language politics and sociology. This is a special issue of the leading journal *Nationalism and Ethnic Politics*. The Language, Ethnicity and Race Reader Roxy Harris, Ben Rampton, 2003. This Reader collects in one volume the key readings on language, ethnicity and race. Using linguistic and cultural analysis, it explores changing ideas of race and the ways in which these ideas shape human communication. Raciolinguistics H. Samy Alim, John R. Rickford, Arnetha F. Ball, 2016-09-30. *Raciolinguistics* reveals the central role that language plays in shaping our ideas about race and vice versa. The book brings together a team of leading scholars working both within and beyond the United States to share powerful, much-needed research that helps us understand the increasingly vexed relationships between race, ethnicity and language in our rapidly changing world. Combining the innovative, cutting-edge approaches of race and ethnic studies with fine-grained linguistic analyses, authors cover a wide range of topics including the struggle over the very term African American, the racialized language education debates within the increasing number of majority-minority immigrant communities in the U.S., the dangers of multicultural education in a Europe that is struggling to meet the needs of new migrants and the sociopolitical and cultural meanings of linguistic styles used in Brazilian favelas, South African townships, Mexican and Puerto Rican barrios in Chicago and Korean American cram schools in New York City among other sites. Taking into account rapidly changing demographics in the U.S. and shifting cultural and media trends across the globe from Hip Hop cultures to transnational Mexican popular and street cultures to Israeli reality TV to new immigration trends across Africa and Europe, *Raciolinguistics* shapes the future of scholarship on race, ethnicity and language. By taking a comparative look across a diverse range of language and literacy contexts, the volume seeks not only to set the research agenda in this burgeoning area of study but also to help resolve pressing educational and political problems in some of the most contested raciolinguistic contexts in the world.

Language Revitalisation in Gaelic Scotland Dunmore Stuart S. Dunmore, 2019-07-17. Situated within the interrelated disciplines of sociolinguistics and sociology of language, this book explores the language use and attitudinal perceptions of a sample of 130 adults who received Gaelic medium education (GME) at primary school during the first years of that system's availability in Scotland. As the first students to have attended GME are now in their late 20s and 30s, this volume offers a timely examination of the long-term outcomes of the system in its earliest years and of the future prospects for Gaelic language maintenance and revitalisation in Scotland. The book presents in-depth discussion and analysis of narratives in order to demonstrate former Gaelic medium students' present-day relationships to the languages they speak, offering fascinating insights into the possible reasons, historical, ideological and personal, for these relationships. This book presents the first open assessment of the outcomes of Gaelic medium education in Scotland and offers suggestions for individuals and

Multilingualism Efurosibina E. Adegbiya, 2004 Adegbiya puts a national and international searchlight on the Nigerian socio linguistic scenario through a description and analysis of the language landscape in its various ramifications He provides a readily accessible stimulating and fairly comprehensive description of the language situation including the functions of languages language choice language attitude the plight and destiny of minority languages and the planning management and engineering of multilingualism in the Nigerian context Upper Sorbian Language Policy in Education Nicole

Dołowy-Rybińska, 2023-02-13 This book deals with the tension between a strategy of language maintenance protecting and reinforcing the language where it is still spoken by community members and a strategy of language revitalization opening up access to the language to all interested people and encouraging new domains of its use The case study presented concerns a grammar school in Upper Lusatia which hosts the coexistence of a community of Upper Sorbian speakers and a group of German native speakers who are learning Upper Sorbian at school The tensions between these two groups studying at the same school are presented in this book against the background of various language strategies practices and ideologies The conflict of interests between the traditional community which perceives itself as the guardians of the minority language and its potential new speakers is played off on different levels by policy makers and may be read through different levels of language policy and planning

Intergroup Communication Howard Giles, 2005 Annotation This book provides a comprehensive introduction to the study of intergroup communication Chapters apply Social Identity Theory and related perspectives to communication phenomena Contributions from international scholars describe communication processes across cultures gender and sexuality disability linguistic and age groups The important role that intergroup processes play in interpersonal small group organizational and mass communication is explicated along with the implications for communication using new technology The book will be invaluable for scholars in the areas of communication and intergroup social psychology and is suited for upper division undergraduate and introductory graduate courses in those areas

Handbücher zur Sprach- und Kommunikationswissenschaft Hans Goebel, Herbert Ernst Wiegand, 1996

Political Independence with Linguistic Servitude Samuel Gyasi Obeng, Beverly Hartford, 2002 This book addresses important issues to the democratisation and development initiatives of developing countries In many former colonies the government remains centralised and many in the population are unable to fully participate in its functioning A critical difference between being a subject and a citizen is the ability to partake in governance Such involvement requires knowledge literacy and the availability of literature in local and national languages This book challenges policy makers and scholars to find creative ways of fostering political empowerment through developing language programmes

Language and Ethnonationalism in Contemporary West Central Balkans Adnan Ajšić, 2021-06-03 This book uses a specialized corpus of public language related discourse to investigate links between language ideologies and ethnonationalism in contemporary West Central Balkans Despite a century and a half of shared linguistic history the nations making up the central part of former Yugoslavia continue to debate the ownership over the common language creating much animosity some legal issues and often absurd circumstances At the heart of the ongoing language debate over Central South Slavic is the belief in language as the cornerstone of ethnonational identity and the legitimacy of ethnic groups claims to sovereignty Given a history of conflict and the recent resurgence in extreme ethnonationalism an understanding of ethnolinguistic contestation in the region is as important as ever This book will be of interest to social scientists working in fields as diverse as applied linguistics anthropology media studies political science sociology and history as well as other scholars with an interest in language and society

Language, Discourse and Social Psychology A. Weatherall, B. Watson, C. Gallois, 2007-03-28 Language and communication are central features of social behaviour So it is somewhat surprising that the social psychological study of this area has a relatively short history In this book a leading group of scholars overview the history theories and methods of the field and showcase the latest developments in cutting edge empirical work

Learning and Reconciliation Through Indigenous Education in Oceania Pangelinan, Perry Jason Camacho, McVey, Troy, 2021-12-10 The mission of higher education in the 21st century must address the reconciliation of student learning and experiences through the lens of indigenous education and frameworks Higher learning institutions throughout the oceanic countries have established frameworks for addressing indigeneity through the infusion of an indigenous perspectives curriculum The incorporation of island indigenous frameworks into their respective curriculums colleges and universities in the oceanic countries has seen positive impact results on student learning leading to the creation of authentic experiences in higher education landscapes Learning and Reconciliation Through Indigenous Education in Oceania discusses ways of promoting active student learning and unique experiences through indigenous scholarship and studies among contemporary college students It seeks to provide an understanding of the essential link between practices for incorporating island indigenous curriculum strategies for effective student learning and course designs which are aligned with frameworks that address indigeneity and that place
