Idowu, Catalina Sitnikov, Lars Moratis, 2018-08-03 This book provides a comprehensive and detailed introduction to the ISO 26000 standard for social responsibility SR in businesses and corporations. Lately, the ISO 26000 has proved to offer an interesting and important approach to the standardization of corporate social responsibility. Approached and perceived as a voluntary standard that does not include any specific requirements, determining the best way to implement and work with it involved a considerable amount of experimentation. This book showcases the current state of application and discusses how different countries have developed their own specific versions of the standard which organizations can use to certify their SR processes.
