Transportation Engineering (Theory & Practice) Raji A K, K K Babu, 2025-06-01 *Proceedings of the 3rd International Conference on Advances in Concrete, Structural, and Geotechnical Engineering—Volume 3* Shamsheer Bahadur Singh, Muthukumar Gopalarathnam, Nishant Roy, 2025-03-22 This book consists of selected papers presented at the 3rd International Conference on Advances in Concrete Structural and Geotechnical Engineering ACSGE 2024 held at BITS Pilani India. The papers represent the latest research work in the fields of advanced composite materials, advanced computational techniques for structures, applications of nanotechnology in civil engineering, bridge engineering, composite structures, concrete technology, the fatigue life of structures, fire resistant structures, functionally graded materials and structures, geotechnical processes, ground improvement techniques, offshore structures, performance based design of structures, pre cast pre stressed concrete structures, seismic design and construction, soil structure interaction, structural health assessment and rehabilitation, sustainability of construction, design and management. The papers are presented by an international pool of academics, research scientists and industrial experts and therefore cater to the global audience from the fields of construction materials, design guidelines, geotechnical engineering, concrete infrastructures and structural engineering. This book is part of a 3 volume series of these conference proceedings and it represents Volume 3 in the series. **Recent Developments in Pavement Engineering** Sherif Badawy, Dar-Hao Chen, 2019-11-01 This book brings together scientific experts in different areas that contribute to the design, analysis and performance of sustainable pavements. This book also contributes to transportation engineering challenges and solutions, evaluate the state of the art, identify the shortcomings and opportunities for research and promote the interaction with the industry. In particular, scientific topics that are addressed in this book include the use of different waste and recycled materials to improve pavement performance, pavement maintenance and rehabilitation, urban heat island due to transportation infrastructure and its mitigation techniques, machine learning applications in the prediction of pavement distresses and analysis of pavement overlay. **Introduction to Civil Engineering** Manabendra Saharia, Nagendra R.
