Development Projects and A Critical Theory

of Environment Jyotsna Bapat, 2005-07-13 This book proposes an original critical theory of environmental sociology which is verified through actual projects relating to infrastructure development. The author locates each development project in its social, institutional, and historical contexts and explains their outcomes as the consequence of the actions of various individuals and groups, each acting rationally to optimise their own interests. Six infrastructure development projects are covered, ranging from eco-tourism and amusement parks to power and mining projects, abatement of industrial pollution, and urban transportation. Interactions between project-affected persons, PAPs, the promoters of each project, and government agencies are analysed at different stages of the projects. This book is an important contribution to assessing the socio-cultural and environmental impacts of development projects. **A Transnational Human Rights Approach to Human**

Trafficking Yoon Jin Shin, 2017-11-06 In *A Transnational Human Rights Approach to Human Trafficking: Empowering the Powerless*, Yoon Jin Shin proposes an innovative approach to empower individuals victimized by human trafficking, one of the most serious human rights challenges in today's world of globalization and migration. Based on thorough empirical research and extensive comparative studies, Shin illuminates complex realities of migrant individuals experiencing trafficking situations and the problems of the current anti-trafficking regime driven by destination countries' self-interest in crime and border control. Shin suggests an alternative transnational human rights framework in which victimized migrants, who have been treated as passive targets of victim witness protection or immigration regulation, finally attain their true voices as empowered rights holders and effectively exercise their human, civil, and labor rights. Shin received the 2014-2015 Ambrose Gherini Prize, the highest prize awarded in the field of International Law by Yale Law School, for her doctoral dissertation on which this book is based.
