Family Language Transmission Brigitte E. Lambert,2008 This book examines the whys and wherefores of family language transmission from the perspective of parents as language planners and managers of their linguistic resources It draws on a qualitative interview based study of twenty families in which German is was or could have been the target language Successive census analyses have charted a marked decline in the number of German speakers in Australia indicating that motivation for transmitting German has waned The situations where it is presently being transmitted are therefore particularly interesting Data analysis was facilitated by a decision map depicting the planning implementation and outcome phases of the transmission undertaking The main findings show that the parents decision is negotiated around their own needs interests and ambitions in terms of child focussed reciprocal and parent centred motives These in turn are linked to transmission strategies and the linguistic outcomes for the children Through an understanding of the motivational issues arising in this context it will hopefully be possible to better predict the effectiveness of the transmission strategies presently applied

Translating and Transmediating Children's Literature Anna Kérchy,Björn Sundmark,2020-09-30 From Struwwelpeter to Peter Rabbit from Alice to Bilbo this collection of essays shows how the classics of children s literature have been transformed across languages genres and diverse media forms This book argues

that translation regularly involves transmediation the telling of a story across media and vice versa and that transmediation is a specific form of translation Beyond the classic examples the book also takes the reader on a worldwide tour and examines among other things the role of Soviet science fiction in North Korea the ethical uses of Lego Star Wars in a Brazilian context and the history of Latin translation in children s literature Bringing together scholars from more than a dozen countries and language backgrounds these cross disciplinary essays focus on regularly overlooked transmediation practices and terminology such as book cover art trans sensory storytelling cart enfreakment foreignizing domestication and intra cultural transformation *The Phenomenon "Harry Potter" - The Secret of Its Success* Isabel Zosig,2012-05 Seminar paper from the year 2003 in the subject English Language and Literature Studies Literature grade 2 B University of Bamberg Centre for British Studies course Introduction to british media and communication science language English abstract At the age of six Joanne Kathleen Rowling² wrote her first short story about a rabbit named Rabbit who had the measles and was visited by his friends Amongst them was a little bee called Miss Bee However she never told anyone about her burning ambition³ to become a writer not even Ms Shephard her English teacher at Wyedean Comprehensive School Ms Shephard was a great influence on young Joanne as she inspired trust⁴ Shephard s comments on Harry Potter and the Philosopher s Stone meant more to Joanne Rowling than any newspaper reviews⁵ After finishing secondary school and her studies in French and Classics at Exeter University Joanne Rowling started to work as a research assistant at Amnesty International which was a very very interesting place to work⁶ but at the same time a huge mistake because Joanne Rowling admits that as a secretary she would be anybody s worst nightmare⁷ It was during a delayed train journey from Manchester to King s Cross Station in London when she was obviously hit by magic The story about a little orphan named Harry Potter who has to live with his old fashioned relatives and finds out that he is a wizard came to her mind And because she had no pen or notebook with her she had to think it So Hogwarts School of Witchcraft and Wizardry came to life in her imagination and as she invented it it felt like research⁸ It was a question of discovery why Harry was where he was why his parents were dead⁹ At the end of the journey she knew it was going to be a seven book series¹⁰ The next five years while she moved to Portugal got married had a baby got divorced and moved back to Britain she continued writing the first book of the series Harry P
