Haruki Murakami and the Search for Self-Therapy Jonathan Dil,2022-02-24 Haruki Murakami a global literary phenomenon has said that he started writing fiction as a means of self therapy What he has not discussed as much is what he needed self therapy for This book argues that by understanding more about why Murakami writes and by linking this with the question of how he writes readers can better understand what he writes Murakami s fiction in other words can be read as a search for self therapy In five chapters which explore Murakami s fourteen novels to date this book argues that there are four prominent therapeutic threads woven through Murakami s fiction that can be traced back to his personal traumas most notably Murakami s falling out with his late father and the death of a former girlfriend and which have also transcended them in significant ways as they have been transformed into literary fiction The first thread looks at the way melancholia must be worked through for mourning to occur and healing to happen the second thread looks at how symbolic acts of sacrifice can help to heal intergenerational trauma the third thread looks at the way people with avoidant attachment styles can begin to open themselves up to love again the fourth thread looks at how individuation can manifest as a response to nihilism Meticulously researched and written with sensitivity the result is a sophisticated exploration of Murakami s published novels as an evolving therapeutic project that will be of great value to all scholars of Japanese literature and culture

Haruki Murakami Chikako Nihei,2019-05-03 Haruki Murakami Storytelling and Productive Distance studies the evolution of the monogatari or narrative and storytelling in the works of Haruki Murakami Author Chikako Nihei argues that

Murakami's power of monogatari lies in his use of distancing effects storytelling allows individuals to cross into a different context through which they can effectively observe themselves and reality His belief in the importance of monogatari is closely linked to his generation's experience of the counter culture movement in the late 1960s and his research on the 1995 Tokyo Sarin Gas Attack caused by the Aum shinrikyo cult major events in postwar Japan that revealed many people's desire for a stable narrative to interact with and form their identity from
