Hebraica, 1893 Hebraica Veritas? Allison Coudert, Jeffrey S. Shoulson, 2004-05-11 Superb The contributors probe the degree of positive interactions between Jews and Christian and also uncover heretofore hidden Jewish contributions to the Western intellectual tradition Choice Analecta Hebraica Christian William Henry Pauli, 1839 **The Masorah of Biblia Hebraica Stuttgartensia** Page H. Kelley, Daniel S. Mynatt, Timothy G. Crawford, 1998-04-09 One of the barriers involved in teaching students of Biblical Hebrew about the Masorah is the lack of introductory literature on the subject Although a lot of information about the Masorah is available in print most of it is in technical professional journals or encyclopedia articles Scattered about in disparate sources often not in English this literature is easier to ignore than it is to incorporate into introductory Hebrew classes As a result most students of Biblical Hebrew complete their studies without any background on the Masorah This volume fills this gap by providing an introduction and glossary to the Masorah of the Biblia Hebraica Stuttgartensia Although the volume could be used by any student of the Hebrew Bible it is specifically designed to be helpful for students who are just learning Hebrew Thus it can serve as an important parallel text for second semester or second year Hebrew courses The introductory chapters give an overview of the field of Masoretic studies and explain the mechanics of using the Masorah of BHS The annotated glossary provides students with definitions and explanations for most of the terms used in BHS including examples **Hebraica veritas versus Septuaginta auctoritatem** Ignacio Carbajosa, 2024-03-13 At the end of the fourth century Jerome decided to translate the Old Testament into Latin from the Hebrew manuscripts that were available to him and not from the traditional Greek text This fact provoked a reaction from Augustine who considered that the Greek translation of the LXX must be the starting point of every translation since it had the authority of the apostles The two great figures of the Latin West engaged in a dialectical battle in which we find clearly delineated the two principles which are in tension and which have determined the reception of the biblical text down to our time the value of the original text hebraica veritas and the authority of the text received by the church Septuaginta auctoritas In facing this battle we are dealing with some very up to date questions Is it possible to speak of a canonical text of the Old Testament In what language is that text On what text should our liturgical translations be based Is there an original text of the Bible Can an ancient version be superior to the text it is translating What is the value of the LXX **Bibliotheca Hebraica Selectissima** I.
