Brian Haughton,2008 *What The Prophet Ether Couldn't Tell Us: Book 2 of 3* Jim Hendleman,2021-04-13 BACK COVER
The sequel to the Jaredite s Civilization What the Prophet Ether couldn t Tell Us is finally out Book III to shortly follow Book II tells of the life and times of the Jaredites the greatest civilization to have ever lived on Planet Earth It details their earliest beginnings and enumerates some of their many achievements and accomplishments It is first mentioned within the Book of Mormon in Ether 1 42 44 Ether was later directed by God to remove everything about them save for their earliest beginnings at the Tower of Babel in Iraq and a few brief tales of their spiritual trials and wars up to their final Civil War Mainstream Archaeology refuses to address this civilization because it would reveal Archaeology s canards about evolution and their false narrative about the Origin of Man The Jaredites settled and colonized South and North America Lemuria Antarctica The British Isles and most of western Europe plus the lands of China and India For nearly 2 530 years they maintained a world wide civilization My research has uncovered many details of Jaredite life and their physical characteristics that the prophet Ether was not allowed to tell us They built all of Egypt Their Hindu colony fought at least two internal nuclear wars They colonized throughout our entire Solar System most moons and all the planets have their cities mainly covered by 7 mile high glass domes except Jupiter and Saturn These two planets each have possible Star War size moons that could be artificial space stations Mars used to be a moon to its now exploded primary which is now the Asteroid Belt Their Martian cities are so immense that New York City and Shanghai combined wouldn t be considered a nickel in a handful of change in comparison to them Jaredite leftovers are all over Earth if one knows when to look for them Book III details a few of their many wars as well as their final Civil War the first year or two which were nuclear Through their longevity they were able to develop their physics to the point to where they could control the weather as well as to weaponize its component parts And their final long prophesied death *Atlantis and Other Lost Worlds* Frank Joseph,2021-07-01 In a single day and night of misfortune the island of Atlantis disappeared into the depths of the sea Plato 360 B C Ever since Plato first pondered the existence of Atlantis the truth behind this infamous sunken city has captured the world Atlantis and Other Lost Worlds is the most up to date and comprehensive investigation of this ancient island written by the foremost authority on the subject Frank Joseph Nowhere else will you find a more dramatic and convincing presentation of the evidence for its archaeological reality The book uncovers the scientific genius of the ancients and the spiritual power of their mysterious religion They are revealed as the inventors of a crystal technology to surpass our own and the master builders of pyramidal monuments around the world The cultural heritage of Atlantis in the civilizations of pharaonic Egypt Bronze Age Europe Maya Mexico and Inca Peru is clearly described The doomed capital comes alive in a vivid recreation of its heyday of cultural splendor and imperial might Inside these pages you will find the answers to many intriguing questions including What is the most likely location of

Atlantis How and when was Atlantis destroyed Has Japan s leading geologist found the sunken citadel of Lemuria Have Russian oceanographers found the ruins of Atlantis What are the disturbing parallels between Atlantis and our time Atlantis and Other Lost Worlds opens a new window on the ancient past offering views of Atlantis and its kindred civilizations never seen before

Invented Knowledge Ronald H. Fritze,2009-05-15 This incredible exploration of the murky world of pseudo history reveals the mix of proven facts informed speculation and pure fiction behind lost continents ancient super civilizations and conspiratorial cover ups as well as the revisionist historical foundations of religions such as the Nation of Islam and the Church of Jesus Christ of Latter day Saints Drawing on the best scholarship available Ronald H Fritze shows that in spite of strong mainstream historical evidence to the contrary many of these ideas have proved durable and gained widespread acceptance As the examples in Invented Knowledge reveal pseudo historians capitalize on and exploit anomalies in evidence to support their claims rather than examining the preponderance of research as a whole

Ancient Treasures Brian Haughton,2013-07-22 The author of Hidden History offers a fascinating tour through centuries of buried riches stolen artifacts and other true tales of treasure The allure of treasure has captivated people for centuries But is it purely a desire for wealth that draws us to tales of hidden riches or is it also the romantic appeal of uncovering lost ancient artifacts The stories behind the loss and recovery of ancient treasures often read like historical suspense fiction In Ancient Treasures readers discover the true histories of lost hoards looted archaeological artifacts and sunken treasures including The Sevso Treasure a hoard of large silver vessels from the late Roman Empire estimated to be worth 200 million looted in the 1970s and sold on the black market The Amber Room a chamber decoration of amber panels backed with gold leaf and mirrors stolen by the Nazis in 1941 and brought to the castle at K nigsberg in Russia from which it disappeared The fabulous wealth of Roman and Viking hoards buried in the ground for safekeeping only to be unearthed centuries later by humble metal detectorists The wrecks of the Spanish treasure fleets whose New World plunder has been the target of elaborate salvage attempts by modern treasure hunters

Twilight of the Gods Erich von Däniken,2025-09-12 Bestselling author Erich von D niken delves into the mysteries of the Mayan civilization and when the extraterrestrial will return Includes a Foreword by Giorgio Tsoukalos High up in the Bolivian Andes 4 000 meters above sea level lies Puma punku an ancient ruined city that simply could never have been constructed by its Stone Age inhabitants Something here really stinks to high heaven writes Erich von Daniken In Twilight of the Gods says von Daniken I document precisely what it was that left the first visitors breathless as they stood before the mighty stone blocks some 400 years ago I will show you what archeologists discovered hundreds of years ago and demonstrate how much has been destroyed over the centuries Intentionally I will also prove that Puma punku was not built by any Stone Age people And in December 2012 the gods will return from their long journey and appear again here on Earth At least that is what the Mayan calendar would have us believe The so called gods the extraterrestrials will come again We re headed for a god shock of major proportions But doesn t anyone with half a brain know that interstellar travel is simply

impossible because of the sheer distances involved And that extraterrestrials would never look like us Well dear readers I destroy these preconceptions Systematically One bit at a time In his own inimitable way Erich von Daniken picks these preconceptions and prejudices apart with a clarity no other author could manage Artificial Intelligence: An Illustrated History Clifford A. Pickover,2024-08-27 A History of the Future that s Happening Right Now Artificial Intelligence An Illustrated History explores the historic origins and current applications of AI in such diverse fields as computing medicine popular culture mythology and philosophy Through more than 100 entries award winning author Clifford A Pickover offers a granular yet accessible glimpse into the world of AI from medieval robots and Boolean algebra to facial recognition and artificial neural networks First released in 2019 this updated paperback edition brings readers up to speed with coverage of technologies such as DALL E and ChatGPT and it explores the very real fear that AI will alter the course of humanity forever

The Search for Atlantis Stephen Kershaw,2018-10-02 The Atlantis story remains one of the most haunting and enigmatic tales from antiquity and one that still resonates very deeply with the modern imagination But where did Atlantis come from what was it like and where did it go Atlantis was first introduced by the Greek philosopher Plato in the fourth century BCE As he discusses about the origins of life the universe and humanity the great thinker puts forward a stunning description of Atlantis an island paradise with an ideal society But the Atlanteans soon degenerate and become imperialist aggressors they choose to fight against antediluvian Athens which heroically repels their mighty forces before a cataclysmic natural disaster destroys the warring states Plato s tale of a great empire that sank beneath the waves has sparked thousands of years of debate over whether Atlantis really existed But did Plato mean his tale as history or just as a parable to help illustrate his philosophy **The Unveiling Origin of Mecca** Mohammed Alal Khan,2021-09-12 The Unveiling Origin of Mecca provides insights into the history of Kaaba Ka ba in Mecca The Ka ba is the first house built on earth It is one of the few and perhaps the only Islamic History books that looks at modern archaeological evidence and the Holy Quran and the history of the Quran to explore the proper location of the Ka ba The author notes that in the Holy Quran Mecca sometimes also called Becca which words are synonymous and signify a place of great intercourse is undoubtedly one of the most ancient cities in the world Some authors imagine it to be the Mesa or Mesha of the Scripture and that it deduced its name from one of Ishmael s sons It stands in a stony and barren valley surrounded by mountains under the exact parallel with the Macoraba of Ptolemy and about 40 Arabian miles from the sea Al Kolzom There is a magnificent temple in the city like the Colosseum at Rome However it is not made of such large stones but burnt bricks and round in the same manner It has ninety or one hundred doors around it and is arched upon entering the temple you descend ten or twelve steps of marble and here and there about the said entrance there stand men who sell jewels and nothing else Researching ancient Islam and the origin of Mecca the author asserts that the Ka ba is currently misplaced contradicting the Holy Quran and Arabian geography Although there are many Islamic scholars and Quran research Institutes throughout the world sadly none of them have yet verified the exact

places mountains surrounding Ka ba and its sacred area according to the Holy Quran **Lore of the Ghost** Brian Haughton,2008-08-14 Lore of the Ghost is an original and thought provoking exploration of the numerous categories of ghosts and hauntings throughout the world It discusses the possible motives for each type of haunting from phantom white ladies and spectral black dogs to haunted highways and ghostly vehicles what they represent why they occur and their possible functions **Agatha! Agatha Snow Abroad: A Sketch Book from her 1912 European Tour - Second Edition** Susan Snow Lukesh,2020-11-05 If you like unusual travel books then you ll enjoy Susan Snow Lukesh s study of her great aunt Agatha Snow s sketch book developed during her 3 month tour of Europe with three companions in 1912 In Agatha Agatha Snow Abroad A Sketch Book from her 1912 EuropeanTour Lukesh presents and explores the original images and brief comments pulling threads to explore what the often cryptic comments mean Agatha also explores the people she and her friends met and briefly traveled with and what happened to the various players in this trip after it ended as the world moved into the first World War and even beyond Although their steam ship left New York harbor barely two days after the Titanic sank and before the survivors arrived no recorded comments from the passage to Europe mention the tragedy Contemporary postcards and one early 19th c print complement Agatha s drawings and show how close her small sketches came to the actual sites she portrayed The small sketch book not even four by six inches presents images some with incredible detail that is best seen when the original image is enlarged causing a reader to shake his or her head and wonder how she did it Her favorite subjects are people and as many folks who travel know part of the fascination and interest in travel is encountering people who are quite different from those we know at home And certainly Agatha s images in fact caricatures of people capture and convey her clear fascination with the people she encountered Agatha supplements Agatha s comments and descriptions with diary entries and letters sent home by other contemporary accounts further enriching what may first appear as a meager offering if judged only by size Agatha s sketch book and the exploration of it offer a snapshot of life in the early 1900s during the Edwardian era where and how folks traveled what travelers discussed what they did and what they ate Lukesh also traveled on a couple occasions to some of the very places that Agatha and companions visited On one occasion she found herself traveling in one of the railway cars and on the very line both now under restoration that Agatha and companions traveled in England Also in England she traveled to see Warwick where Agatha had seen and drawn two wonderful sketches of men on the streets of that fine historic town Agatha not only presents the original sketches and brief comments from over 100 years ago but includes solutions to puzzles that Agatha left us such as what is the story of Mrs Campbell and the Cockroaches in the Cabin what is A B C and what are horse tail guards Agatha fulfills a reader s need to know what happened to the folks Agatha met and now the readers meet on the trip both those on the ship passages to and from Europe and those met along the way in Europe As much as possible using public records the lives of some of them after the trip through World War 1 and the years after are traced as are the fates of the ships that

carried the travelers Not every puzzle has been solved leaving some for readers but many are with great thanks to internet resources these days and Lukesh s ability to use public records for genealogical purposes and answers A final bonus in Agatha For decades Lukesh excavated and studied the things left behind by prehistoric folks in Southern Italy and Sicily Today her attention has turned to things left behind by her ancestors From a gold bracelet she wears to an 1860s photo album and to this sketch book of her great aunt Agatha This exploration of a tour by four women in their 20s over 100 years ago gives insight on restoring pieces of family history based on things left behind offering a template for organizing similar genealogy research

False Justice Stuart Greaves,2012-12-18 Justice for all False Justice specifically calls for a paradigmatic shift in the way most people think about justice Having a right paradigm of fairness is crucial to withstanding the type of deception that is rapidly permeating our culture today False Justice equips you with the Christ focus and the biblical backing needed to form a right and godly mindset regarding social justice Distinct from other Christian books about social justice False Justice has a Christ centric focus it defines justice in relation to Jesus Himself doesn t simply suggest methodologies it calls for a change in the foundational paradigm of justice tells how Jesus intends to bring godly justice upon the earth reveals how the message of the gospel is the message of justice False Justice brings you closer to God by clearly revealing His desire for righteousness honesty and integrity in the earth setting Christ as the ultimate vision of justice and calling you to set your attention solely on Him

Essential Shit - Facts That Will Scare the Total Shit Out of You! Cary McNeal,2012-04-01 Disturbing phenomena are everywhere we turn and this book is jam packed with facts that will truly horrify you but undoubtedly entertain and educate at the same time From the ugly truth about food and drink to the human body exposed to the beastly tales of creatures that outnumber us no subject is off limits Did you know there is a sneaky fish that can swim up your genitals Or that the average human loses 85 000 brain cells each day If not read on there s plenty more where that came from
