Teacher-Student Power Relations in Primary Schools in Hong Kong Mei-Yee Wong, 2014-12-11 This book examines from a sociological perspective teacher student power relations in classroom learning and teaching The case study consists of four

Hong Kong primary schools and sixteen classrooms therein that were selected as research sites to explore the concept of teacher student power relations Observations individual interviews and document analysis were the main data collection methods employed Wong provides the historical context for the issue of teacher student power relationship by reviewing the traditional Chinese cultures and values in particular the values of respect for authority and for teachers and demonstrates the intermingling of Chinese and Western cultures in contemporary Hong Kong Chinese society She reviews the major educational initiatives carried out in Hong Kong since the 1970s showing how Western educational policies promoting student centric teaching modes have encouraged changes in classroom culture With reference to the observed seventy three lessons the study identified three patterns of teacher student power relations Teacher Domination Relatively Balanced Opportunity for Power Sharing and Student Self Empowerment each involving different degrees of power being exercised by teacher and students The coexistence of these three power patterns and the two corresponding power situations student empowerment and disempowerment can be explained as the result of multileveled intertwined interactions among six factors related to social culture education policy school and classroom contexts and to the individual players concerned The book thus contributes to the understanding of teacher student power relations in the context of Hong Kong by proposing a theoretical framework that reflects local socio cultural educational and school contexts

Assessment for Learning Rita Berry,2008-09-01 Assessment is an important part of effective teaching and learning It allows achievements to be recognized and helps both teachers and learners to reflect on and review their performance and progress While assessment has long been an end of learning activity to measure what learners can do the outcome oriented approach does not always foster learning motivation effectively A new perspective now encourages ongoing appraisal in the classroom to improve learning This book reflects current thinking of assessment with a stated focus on assessment for learning AfL It informs teachers about the latest developments and provides teachers with important tools for integrating assessment in the classroom The discussions on assessment theories are in depth and the examples used for illustrating the concepts are plentiful
