Hojoki Visions Of A Torn World:

Hojoki Kamo no Chomei, 1998-07-01 An extraordinary literary work from the 12th century a meditation on nature and mortality *Artistic Visions and the Promise of Beauty* Kathleen M. Higgins, Shakti Maira, Sonia Sikka, 2017-03-06 This volume examines the motives behind rejections of beauty often found within contemporary art practice where much critically acclaimed art is deliberately ugly and alienating It reflects on the nature and value of beauty asking whether beauty still has a future in art and what role it can play in our lives generally The volume discusses the possible end of art what art is and the relation between art and beauty beyond their historically Western horizons to include perspectives from Asia The individual chapters address a number of interrelated issues including art beauty and the sacred beauty as a source of joy and consolation beauty as a bridge between the natural and the human beauty and the human form the role of curatorial practice in defining art order and creativity and the distinction between art and craft The volume offers a valuable addition to cross cultural dialogue and in particular to the sparse literature on art and beauty in comparative context It demonstrates the relevance of the rich tradition of Asian aesthetics and the vibrant practices of contemporary art in Asia to Western discussions about the future of art and the role of beauty Traditional Japanese Literature Haruo Shirane, 2012-09-25 Haruo Shirane's critically acclaimed *Traditional Japanese Literature An Anthology Beginnings to 1600* contains key examples of both high and low styles of poetry drama prose fiction and essays For this abridged edition Shirane retains substantial excerpts from such masterworks as *The Tale of Genji* *The Tales of the Heike* *The Pillow Book* the *Man'yōshū* and the *Kokinshū* He preserves his comprehensive survey of secular and religious anecdotes *setsuwa* as well as classical poems with extensive commentary He features no drama selections from influential war epics and notable essays on poetry fiction history and religion Texts are interwoven to bring into focus common themes styles and allusions while inviting comparison and debate The result is a rich encounter with ancient and medieval Japanese culture and history Each text and genre is enhanced by extensive introductions that provide sociopolitical and cultural context The anthology is organized by period genre and topic an instructor friendly structure and a comprehensive bibliography guides readers toward further study Praise for *Traditional Japanese Literature An Anthology Beginnings to 1600* Haruo Shirane has done a splendid job at this herculean task Joshua Mostow University of British Columbia A comprehensive and innovative anthology All of the introductions are excellent *Journal of Asian Studies* One of those impressive erudite must have titles for anyone interested in Asian literature *Bloomsbury Review* An anthology that comprises superb translations of an exceptionally wide range of texts Highly recommended *Choice* A wealth of material *Monumenta Nipponica* *The Spirit of Design* Stuart Walker, 2021-12-24 Imaginative design will be a crucial factor in enacting sustainability in people's daily lives Yet current design practice is trapped in consumerist cycles of innovation and production making it difficult to imagine how we might develop a more meaningful and sustainable rendition of material culture Through fundamental design research *The Spirit of Design*

challenges a host of common assumptions about sustainability progress growth and globalization Walker's practice based explorations of localisation human meaning and functional objects demonstrate the imaginative potential of research through design and yield a compelling constructive and essentially hopeful direction for the future one that radically re imagines our material culture by meshing mass production with individuality products with place and utilitarian benefit with environmental responsibility In so doing the author explores How understandings of human meaning affect design and how design can better incorporate issues of personal meaning How mass production needs to become integrated with localised production and service provision How short lived electronic goods can be brought into a more sustainable design paradigm The changing role of the designer in a post consumerist world Taking a design centred approach a combination of creative propositional design practice reasoned argument and theoretical discussion the book will impel readers to investigate the nature of contemporary material culture and its relationship to both the natural environment and to deeper notions of human meaning
