Advising At Csub Empowering Students For Success:

Choice, 2006 **Academic Advising for Student Success and Retention** Michael Hovland, Edward C. Anderson, William McGuire, David Crockett, 1997 Academic Advising in the Community College Terry U. O'Banion, 2019-12-10 Academic advising is the second most important function in the community college. If it is not conducted with the utmost efficiency and effectiveness, the most important function in the college instruction will fail to achieve its purpose of ensuring that students succeed in navigating the curriculum to completion. The purpose of academic advising is to help students select a program of study to meet their life and vocational goals. As such, academic advising is a central and important activity in the process of education. Academic advising occurs at least once each term for every student in the college; few student support functions occur as often or affect so many students. But while there is general agreement concerning the importance of academic advising for the efficient functioning of the institution and the effective functioning of the student, there is little agreement regarding the nature of academic advising and who should perform the function. In this seminal work on academic advising, the authors of three overarching chapters address the key issues and challenges of academic advising, followed by the authors of four of the most innovative and successful programs of academic advising in the nation. Academic Advising for Student Success and Retention Michael Hovland, U S A Group Noel-Levitz, USA Group/Noel Levitz (Firm), 1996-10-01 Academic Advising Terry U. O'Banion, 2023-11-22 Leading specialists in academic advising describe five programs that have been judged by a national panel as among the most outstanding or exemplary in the country. Also included is an updated version of the original 1972 O'Banion model and data from the Center for Community College Student Engagement. **Connections** Paul A. Gore, Wade Leuwerke, A. J. Metz, 2018-10-12 Connections is an innovative program built from the ground up with a growth mindset approach to college and career success. Written by counseling psychologists Paul Gore, Wade Leuwerke, and A. J. Metz, Connections shows students from day one how to be learners whose mindset, drive, and strengths will help them meet any challenge on their way to college personal and career success. The expertly designed program is firmly rooted in the most current research in positive psychology, using self-reflection as a tool for goal setting, goal setting as a tool for imagining one's potential, and imagining one's potential as the motivation for realizing it. Connections puts students at the center of their own personalized learning path, facilitates their purposeful choice of an academic and career plan, and develops all the skills they need: cognitive and non-cognitive, academic and life, to foster their self-growth and success. Built around the most common issues faced in the classroom, LaunchPad for Connections, Second Edition, gives students everything they need to prepare for class and exams, including author-developed digital tools linked directly to the eBook, the ACES student self-assessment taken at the start and end of term, and our acclaimed LearningCurve adaptive quizzing. For instructors, LaunchPad offers everything they need to quickly set up a course, customize the content, prepare presentations and lectures, assign and assess homework, and guide the progress of individual students.
