**Business Information Systems** Witold Abramowicz, 2012-02-02 This book contains the refereed proceedings of the 14th International Conference on Business Information Systems BIS 2011 held in Poznań, Poland in June 2011. The 25 revised full papers were carefully reviewed and selected from 57 submissions. Following this year's conference theme of Towards Flexible Personalized and Adaptive Business Applications, the contributions were grouped into eight sections on business rules, business process verification, business process variants and composition, business process improvement, data modeling and integration, Internet science, modern enterprises and specific business information systems issues.

**Handbook on Decision Support Systems 1** Frada Burstein, Clyde W. Holsapple, 2008-01-22 Decision support systems have experienced a marked increase in attention and importance over the past 25 years. The aim of this book is to survey the decision support system (DSS) field, covering both developed territory and emergent frontiers. It will give the reader a clear understanding of fundamental DSS concepts, methods, technologies, trends, and issues. It will serve as a basic reference work for DSS research, practice, and instruction. To achieve these goals, the book has been designed according to a ten-part structure divided in two volumes with chapters authored by well-known, well-versed scholars and practitioners from the DSS community.

*Php Oracle Web Development* Yuli Vasiliev, 2007-07-30 This practical book for PHP Oracle developers is built around well-explained, easy-to-follow example code to build robust, efficient, secure solutions covering popular, current topics on using PHP with Oracle. Assuming no special skill level, experienced author Yuli Vasiliev shows how to install and configure PHP and Oracle, connect PHP to Oracle, move application business logic to Oracle, build transactional applications, use security features, improve performance with caching, employ XML features, implement SOAP web services, build Ajax-driven PHP Oracle solutions. Building and deploying PHP applications on Oracle Database combines the power and robustness of Oracle with the easy, rapid development of open-source PHP to achieve high performance, scalable, reliable, data-driven web applications with minimal effort. Unlike some other databases, Oracle allows building the key business logic of PHP applications inside the database, moving data processing from web server to database server.
