OBJECTIFS ET DÉMARCHE MÉTHODOLOGIQUES Tous les enseignants y compris ceux de Français Langue étrangère connaissent le célèbre triangle didactique qui illustre toute situation d'enseignement et met en évidence les multiples interactions entre l'enseignant l'élève et le savoir L'exploitation de ce triangle a donné lieu plus d'études théoriques que pratiques Le présent ouvrage a donc comme premier objectif de combler ce vide L'enseignement des langues vivantes est tributaire des recommandations du CECR Cadre Européen Commun de Référence pour les langues et des changements qui en découlent L'ouvrage se présente donc comme un authentique trait de pédagogie contemporaine qui allie étroitement théorie et pratiques de classe et répond concrètement aux multiples interrogations des enseignants souvent désarmés face au poids des programmes officiels aux horaires limités aux manuels parfois inadaptés la perspective actionnelle préconisée par le CECR et la remise niveau qu'elle suggère

Enseigner les structures langagières en FLE Olga Galatanu, 2010 Les grands courants de pensée en acquisition des langues se tournent de façon préférentielle soit vers une approche de l'intervention de l'enseignant et du concepteur du programme considérés comme des médiateurs qui fournissent un maximum d'input en vue de l'organisation et de la progression de l'interlangue soit vers une stratégie globale s'appuyant sur la construction du sens partir de échanges communicatifs L'ouvrage qui fait suite un premier volume consacré la place de la construction du sens en interaction dans l'acquisition de la signification linguistique réunit une série d'articles qui s

interrogent dans une perspective complémentaire celle adoptée précédemment sur la place de l'intervention entendue comme explicitation et apprentissage des formes linguistiques et notamment grammaticales dans l'acquisition des structures langagières et des compétences linguistique et pragmatique Les contributeurs situent ainsi leurs questionnements et leurs propositions théoriques et pratiques l'interface de la grammaire son applicabilité les nouveaux discours didactiques sur les structures langagières et les nouvelles méthodologies de l'intervention des concepteurs et des enseignants d'une part et de l'analyse de l'interaction en classe de langue étrangère de la définition et de la valuation des compétences langagières acquises d'autre part
