ETHNIC REALITIES OF MEXICAN AMERICANS Martin Guevara Urbina, Joel E. Vela, Juan O. Sanchez, 2014-03-01 The goal of this book is to examine the ethnic experience of the Mexican American community in the United States from colonialism to twenty first century globalization The authors unearth evidence that reveals how historically white ideology combined with science law and the American imagination has been strategically used as a mechanism to intimidate manipulate oppress control dominate and silence Mexican Americans ethnic racial minorities and poor whites A theoretical and philosophical overview is presented focusing on the repressive practice against Mexicans that resulted in violence brutality vigilantism executions and mass expulsions The Mexican experience under hooded America is explored including religion the Ku Klux Klan and the Mexican American Civil Rights Movement Local state and federal laws are documented often in conflict with one another including the Homeland Security program that continues to result in detentions and deportations The authors examine the continuing argument of citizenship that has been used to legally exclude Mexican children from the educational system and thereby being characterized as not fit for the classroom nor entitled to an equitable education Segregation and integration in the classroom is discussed featuring examples of court cases As documented throughout the book American law is a constant reminder of the pervasive ideology of the historical racial supremacy socially defined and enforced ethnic inferiority and the rejection of positive social change equality and justice that continues to persist in the United States The book is extensively referenced and is intended for professionals in the fields of sociology history ethnic studies Mexican American Chicano studies law and political science and also those concerned with sociolegal issues Description Here *Ethnicity and Criminal Justice in the Era of Mass Incarceration* Martin Guevara Urbina, Sofía Espinoza Álvarez, 2017-02-27 ETHNICITY AND CRIMINAL JUSTICE IN THE ERA OF MASS INCARCERATION A Critical Reader on the Latino Experience is designed as a Latino reader in criminal justice covering a much broader spectrum of the Latino experience in criminal justice and society while giving readers a broad overview of the Latino experience in a single book Considering the shifting trends in demographics and the current state of the criminal justice system along with the current political climate this book is timely and of critical significance for the academic political and social arena The authors report sound evidence that testifies to a historical legacy of violence brutality manipulation oppression marginalization prejudice discrimination power and control and to white America s continued fear about ethnic and racial minorities a movement that continues in the twenty first century as we have been witnessing during the 2015 2016 presidential race highly charged with anti immigrant and anti Mexican political rhetoric A central objective of this book is to demystify and expose the ways in which ideas of ethnicity race gender and class uphold the functioning and legitimacy of the criminal justice system In this mission rather than attempting to develop a single explanation for the Latino experience in policing the courts and the penal system this book presents a variety of studies and perspectives that illustrate alternative ways of

interpreting crime punishment safety equality and justice The findings reveal that race ethnicity gender class and several other variables continue to play a significant role in the legal decision making process With the social control from police brutality to immigration discourse reaching unprecedented levels the book will have broad appeal for students police officers advocates activists attorneys the media and the general public Hispanics in the U.S Criminal Justice System Martin Guevara Urbina,Sofía Espinoza Álvarez,2018-05-07 This updated and expanded new edition resumes the theme of the first edition and the findings reveal that race ethnicity gender class and several other variables continue to play a significant and consequential role in the legal decision making process The book is structured into three sections each of which corresponds to a different body of work on Latinos Section One explores the historical dynamics and influence of ethnicity in law enforcement and focuses on how ethnicity impacts policing field practices such as traffic stops use of force and the subsequent actions that police departments have employed to alleviate these problems A detailed examination of critical issues facing Latino defendants seeks to better understand the law enforcement process The history of immigration laws as it pertains to Mexicans and Latinos explains how Mexicans have been excluded from the United States through anti immigrant legislation Latino officers must cope with structural and political issues the community and media as these practices and experiences within the American police system are explored Section Two focuses on the repressive practices against Mexicans that resulted in executions vigilantism and mass expulsions The topic of Latinos and the Fourth Amendment reveals that the constitutional right of people to be protected against unreasonable searches and seizures has been eviscerated for Latinos and particularly for Mexicans Possible remedies to existing shortcomings of the court system when processing indigent defendants are presented Section Three studies the issue of Hispanics and the penal system The ethnic realities of life behind bars probation and parole the legacy of capital punishment and life after prison are discussed Section Four addresses the globalization of Latinos social control and the future of Latinos in the U S Criminal justice system Lastly the race and ethnic experience through the lens of science law and the American imagination are explored concluding with policy recommendations for social and criminal justice reform and ultimately humanizing differences Written for professionals and students of law enforcement this book will promote the understanding of the historical legacy of brutality manipulation oppression marginalization prejudice discrimination power and control and white America s continued fear about racial and ethnic minorities American Ethnicity Adalberto Aguirre,Jonathan H. Turner,2007 This brief text provides an accessible introduction to the dynamics of racial and ethnic relations After summarizing key concepts and theories the authors develop a simple theoretical framework that guides the presentation of data on each of the prominent ethnic groups in America As a result the book examines each ethnic group from the same perspective allowing students to compare the dynamics of discrimination against African Americans Native Americans Asian Americans white ethnic Americans and Latinos Digital Media Strategies of the Far Right in Europe and the United States Patricia Anne Simpson,Helga Druxes,2015-05-06 With the

leverage of digital reproducibility historical messages of hate are finding new recipients with breathtaking speed and scope The rapid growth in popularity of right wing extremist groups in response to transnational economic crises underscores the importance of examining in detail the language and political mobilization strategies of the New Right In Europe for example populist right wing activists organized around an anti immigration agenda are becoming more vocal providing pushback against the increase in migration flows from North Africa and Eastern Europe and countering support for integration with a categorical rejection of multiculturalism In the United States anti immigration sentiment provides a rallying point for political and personal agendas that connect the rhetoric of borders with national racial and security issues Digital Media Strategies of the Far Right in Europe and the United States is an effort to examine and understand these issues informed by the conviction that an interdisciplinary and transnational approach can allow productive comparison of far right propaganda strategies in Europe and the United States With a special emphasis on performing ideology in the far right music scene on violent anti immigrant stances and on the far right s skillful creation and manipulation of virtual communities the contributions foreground the cultural shibboleths that are exchanged among far right supporters on the Internet which serve to generate a sense of group belonging and the illusion of power far greater than the known numbers of neo Nazis in any one country might suggest Moreover with attention to transatlantic right wing movements and their use of particularly digital media the essays in this volume put pressure on the similarities among the various national agents while accommodating differences in the virtual and sometimes violent identities created and nurtured online

American Ethnicity: The Dynamics and Consequences of Discrimination Adalberto Aguirre, Jr., Jonathan H. Turner, 2008-09-10 American Ethnicity is a brief text that provides an accessible introduction to the dynamics of racial and ethnic relations Key concepts and theories are summarized and the authors develop a simple theoretical framework that guides the presentation of data on each of the prominent ethnic groups in America As a result this book examines each ethnic group from the same perspective allowing students to compare the dynamics of discrimination against African Americans Native Americans Asian and Pacific Island Americans white ethnic Americans and Latinos The sixth edition offers expanded theoretical framework through the inclusion of the Social Identity Theory

Crossing Boundaries Brian D. Behnken, Simon Wendt, 2013-06-27 Crossing Boundaries Ethnicity Race and National Belonging in a Transnational World explores ethnic and racial nationalism within a transnational and transcultural framework in the long twentieth century late nineteenth to early twenty first century The contributors to this volume examine how national solidarity and identity with their vast array of ideological political intellectual social and ethno racial qualities crossed juridical territorial and cultural boundaries to become transnational how they altered the ethnic and racial visions of nation states throughout the twentieth century and how they ultimately influenced conceptions of national belonging across the globe Human beings live in an increasingly interconnected transnational global world National economies are linked worldwide information can be transmitted around the world in seconds and borders are more transparent and fluid In this

process of transnational expansion the very definition of what constitutes a nation and nationalism in many parts of the world has been expanded to include individuals from different countries and more importantly members of ethno racial communities But crossing boundaries is not a new phenomenon In fact transnationalism has a long and sordid history that has not been fully appreciated Scholars and laypeople interested in national development ethnic nationalism as well as world history will find *Crossing Boundaries* indispensable

LATINO POLICE OFFICERS IN THE UNITED STATES Martin Guevara Urbina, Sofia Espinoza Alvarez, 2015-03-01 Considering the long lasting and complicated history of U S race and ethnic relations the multiple array of issues currently confronting both ethnic and racial communities and the shifting trends in the ethnic racial landscape this book seeks to provide a comprehensive account of the simultaneous interaction of pressing historical and contemporary forces shaping the Latino experience as well as police minority relations to better understand the current state of policing and gain further insight into the future role of Latino police in American law enforcement across the country Delineating the confines of policing a highly diverse and multicultural society in the twenty first century this book conjoins historical theoretical and empirical research placing Latino policing within a broader law enforcement and community context Major topics include the need for Latino police officers employment of Latino officers by federal state and local law enforcement agencies Chicano police officers working in the Latino community Latino officers policy practice and ethnic realities Mexican American law enforcement bridging the gaps future research and change in American institutions policy recommendations toward a new police force and the future of Latino officers in the American police Additional issues highlighted include racial ethnic profiling police brutality underpolicing and overpolicing which challenge the quest for representation equality justice and due process Finally the contributing authors demonstrate that the lack of knowledge on Latino police and the overall American police is not inevitable and thus the book concludes with policy and research recommendations to help bridge this long neglected void ultimately the creation of a new police force for the twenty first century The text represents a most timely and essential tool for all levels of policing law enforcement administrators criminal justice educators civic managers criminologists sociologists and others vested in police reform

TWENTY-FIRST CENTURY DYNAMICS OF MULTICULTURALISM Martin Guevara Urbina, 2014-09-19 In the twenty first century few studies have delineated the U S multiculturalism story beyond black and white to include the truths and realities of other Americans over time resulting in highly skewed academic publications While the white experience and to a lesser extent the black experience has been well documented the brown experience for instance has been neglected minimized or excluded from the pages of history Clearly there has been a great need for researchers to examine the multiple intertwining forces of historical and contemporary movements defining shaping and governing the everyday experience of America s people In the face of centuries of manipulation exploitation oppression and sometimes brutal violence blacks browns reds yellows and others are still here fighting not only for ethnic and racial tolerance but also for equality justice respect and human dignity In

fact despite the long legacy of hate violence and oppression against America's most disadvantaged communities particularly undocumented people the minority population will continue to grow and with pressing demographic shifts ethnic and racial minorities will soon become the new face of America In delineating the dynamics of multiculturalism over the years contributing authors illustrate that the United States is nowhere near a post racial society and thus we must prioritize equality justice and multiculturalism if the U S is in fact going to have a balanced system Globally the United States must actively engage in significant and positive social transformation in the new millennium if the U S is going to be situated and reflective of a post racial society in the twenty first century Twenty First Century Dynamics of Multiculturalism will be of benefit to professionals in the fields of sociology history minority studies Mexican American Chicano studies ethnic Latino studies law political science and also those concerned with sociolegal issues

Middle Eastern Lives in America Amir B. Marvasti, Karyn D. McKinney, 2004 The place of Middle Easterners in the racial hierarchy of the United States remains relatively unexplored in scholarly research In this book this authors present the everyday experiences of this population by specifically focusing on Arab and Iranian Americans Using focus groups and interviews respondents were asked to comment on their everyday experiences in the realms of public spaces educational settings work housing and family Through concrete descriptions and analysis of how Arab and Iranian Americans are confronted with matters of ethnic and racial inequality this work's primary aim is to debunk entrenched stereotypes by bringing to the forefront the human complexity of the Middle Eastern experience Marvasti and McKinney argue that the discrimination and exclusion faced by this group cannot be fully understood using the existing paradigm of minority majority group interactions The political tensions between the U S and various Islamic countries in the Middle East combined with the September 11th terrorist attacks have cast Arab and Iranian Americans as a unique minority group These facts have created a condition of hostility and suspicion in the daily interactions between Middle Eastern Americans and other Americans that is not faced by any other ethnic group today At the same time while there is a growing recognition in the sociological study of race and ethnicity of the so called browning of America the research literature does not address how Middle Easterners figure into this demographic shift This text will fill these general gaps in the race and ethnicity literature by making visible this minority group's everyday experiences and their strategies for coping with and resisting discrimination
