Age Of Fracture Daniel T Rodgers:

Age of Fracture Daniel T. Rodgers, 2012-09-03 In the last quarter of the twentieth century the ideas that most Americans lived by started to fragment Mid century concepts of national consensus managed markets gender and racial identities citizen obligation and historical memory became more fluid Flexible markets pushed aside Keynesian macroeconomic structures Racial and gender solidarity divided into multiple identities community responsibility shrank to smaller circles In this wide ranging narrative Daniel Rodgers shows how the collective purposes and meanings that had framed social debate became unhinged and uncertain Age of Fracture offers a powerful reinterpretation of the ways in which the decades surrounding the 1980s changed America Through a contagion of visions and metaphors on both the intellectual right and the intellectual left earlier notions of history and society that stressed solidity collective institutions and social circumstances gave way to a more individualized human nature that emphasized choice agency performance and desire On a broad canvas that includes Michel Foucault Ronald Reagan Judith Butler Charles Murray Jeffrey Sachs and many more Rodgers explains how structures of power came to seem less important than market choice and fluid selves Cutting across the social and political arenas of late twentieth century life and thought from economic theory and the culture wars to disputes over poverty color blindness and sisterhood Rodgers reveals how our categories of social reality have been fractured and destabilized As we survey the intellectual wreckage of this war of ideas we better understand the emergence of our present age of uncertainty

Golden States Eileen Luhr, 2024-09-03 Whether they were utopian communitarians sun seeking gurus or Protestant health reformers Southern California s spiritual seekers drew on the United States deepening global encounters and consumer cultures to pair religious and personal reinvention with cultural and spiritual revitalization Through a rereading of the region s cultural landscape Golden States provides an alternative history of California religion and spirituality showing that seekers developed a number of paths to fulfillment that enhanced the region s lifestyle brand Drawing on case studies as varied as surfing and yoga practices Dr Bronner s Magic Soaps and the only designated Blue Zone in the United States this work explores the long term impact of alternative beliefs on the region In doing so it highlights the ongoing tensions between privileging personal choice and pursuing social good as communities navigated whether the commitment to the emotional and therapeutic needs and desires of individual believers should be pursued at the expense of broader efforts to achieve collective well being

The Nature of Church Camp Christopher W. Anderson, 2023-12-18 The Nature of Church Camp An Environmental History of Outdoor Ministry 1945 1980 by Christopher W Anderson explores the mid twentieth century history of religious camps and retreat centers to provide new insights into the history of environmentalism in the United States Ecumenical Protestantism and the ecology movement both changed the calculus of

American morality after World War II Through archival material case study visits and oral histories Anderson finds that these institutions often reacted to ecological critiques with temperate but gradual reforms However camps and outdoor ministries by virtue of their natural settings and sizable acreage soon provided a new way to explore the history of spirituality and ecology moving away from the conference campus and using nostalgia for the frontier instead to make arguments about the meaning of the American nation and the value of democracy This new way of thinking was reflected throughout the camps and enthusiastically endorsed decentralized small group camping By examining the conduct of church camps and conferences before during and after the ecological era Anderson shows how environmental stewardship became the dominant paradigm for Protestant environmentalism why that is a flawed and fractious model and why it has stalled

Citino, 2017-02-17 Decades before 9 11 and the Arab Spring US and Arab elites contended over the future of the Middle East Through unprecedented research in Arabic and English Envisioning the Arab Future details how Americans and Arabs nationalists Islamists and communists disputed the meaning of modernization within a shared set of Cold War era concepts Faith in linear progress the idea that society functioned as a system and a fascination with speed united officials and intellectuals who were otherwise divided by language and politics This book assesses the regional implications of US power while examining a range of topics that transcends the Arab Israeli conflict including travel communities gender oil agriculture Iraqi nationalism Nasser s Arab Socialism and hijackings in both the United States and the Middle East By uncovering a shared history of modernization between Arabs and Americans Envisioning the Arab Future challenges assumptions about a clash of civilizations and profoundly reinterprets the antecedents of today s crises **The Planetary Clock** Paul Giles, 2021-02-11 The theme of The Planetary Clock is the representation of time in postmodern culture and the way temporality as a global phenomenon manifests itself differently across an antipodean axis To trace postmodernism in an expansive spatial and temporal arc from its formal experimentation in the 1960s to environmental concerns in the twenty first century is to describe a richer and more complex version of this cultural phenomenon Exploring different scales of time from a Southern Hemisphere perspective with a special emphasis on issues of Indigeneity and the Anthropocene The Planetary Clock offers a wide ranging revisionist account of postmodernism reinterpreting literature film music and visual art of the post 1960 period within a planetary framework By bringing the culture of Australia and New Zealand into dialogue with other Western narratives it suggests how an antipodean impulse involving the transposition of the world into different spatial and temporal dimensions has long been an integral if generally occluded aspect of postmodernism Taking its title from a Florentine clock designed in 1510 to measure worldly time alongside the rotation of the planets The Planetary Clock ranges across well known American postmodernists John Barth Toni Morrison to more recent science fiction writers Octavia Butler Richard Powers while bringing the US tradition into juxtaposition with both its English Philip Larkin Ian McEwan and Australian Les Murray Alexis Wright counterparts By aligning cultural postmodernism with music Messiaen
