Davis, 2023 In a lively account that spans continents Jennifer J Davis considers what it meant to be called a libertine in early modern France and its colonies Libertinage was a polysemous term in early modern Europe and the Atlantic World generally translated as debauchery or licentiousness in English Davis assesses the changing fortunes of the quasi criminal category of libertinage in the French Atlantic based on hundreds of cases drawn from the police and judicial archives of seventeenth and eighteenth century France and its Atlantic colonies alongside the literature inspired by those proceedings The libertine life was not merely a subject for fiction nor a topos against which to play out potential revolutions It was a charge authorities imposed on a startlingly wide array of behaviors including gambling selling alcohol to Native Americans and secret marriages Once invoked by family and state authorities the charge proved nearly impossible for the accused to contest for a libertine need not have committed any crimes to be perceived as disregarding authority and thereby threatening families and social institutions The research in Bad Subjects provides a framework for analysis of libertinage as a set of anti authoritarian practices and discourses that circulated among the peoples of France and the Atlantic World ultimately providing a compelling blueprint for alternative social and economic order in the Revolutionary period **New Market Orientated Transport Systems** European Commission.
