Shakespeare's Hamlet John Hort, Leela Hort, 1999 *New Directions in Early Modern English Drama* Aidan Norrie, Mark Houllahan, 2020-07-06 This collection examines some of the people places and plays at the edge of early modern English drama Recent scholarship has begun to think more critically about the edge particularly in relation to the canon and canonicity This book demonstrates that the people and concepts long seen as on the edge of early modern English drama made vital contributions both within the fictive worlds of early modern plays and without in the real worlds of playwrights theaters and audiences The book engages with topics such as child actors alterity sexuality foreignness and locality to acknowledge and extend the rich sense of playmaking and all its ancillary activities that have emerged over the last decade The essays by a global team of scholars bring to life people and practices that flourished on the edge manifesting their importance to both early modern audiences and to current readers and performers [Selfhood on the Early Modern English Stage](#) Pauline Blanc, 2009-10-02 The twelve essays in *Selfhood on the Early Modern English Stage* analyse the influences that shaped the fictional constructs that inhabited the drama of the early modern period The contributors all specialists in the field working in France and England offer a wide spectrum of views and discuss a variety of dramatic texts ranging from late medieval cycle plays and interludes of the Tudor period to plays by Marlowe Shakespeare Tourneur and Jonson The early modern stage self emerges out of this collection as the site of a rich confluence of discursive and historical forces existing beyond the theatre itself Three essays in the first section reveal how abstract figures like Mundus and Mankind gradually became endowed with personal motives and personalizing traits which brought into existence stage beings with a capacity for emotion In the second section three essays deal with specific cultural factors that influenced the representation of selfhood in John Lyly s *Alexander* in Marlowe s *Tamburlaine* and in a selection of Stuart court masques presented at Whitehall The third section offers new insights into the composition of *Hamlet* as a dramatized personality the fourth investigates the way in which the poet playwright s autobiographical impulses may have helped in the construction of early modern stage selves the final fifth section explores the kaleidoscopic sources of the royal protagonists in Rowley s *When You See Me You Know Me* and Shakespeare s *Richard III* This collection of essays seeks to add a further contribution to the

growing body of criticism that investigates the multi faceted multi layered construction of early modern subjectivity

Ecocriticism and Early Modern English Literature Todd A. Borlik, 2011-05-11 In this timely new study Borlik reveals the surprisingly rich potential for the emergent green criticism to yield fresh insights into early modern English literature Deftly avoiding the anachronistic casting of sixteenth and seventeenth century authors as modern environmentalists he argues that environmental issues such as nature s personhood deforestation energy use air quality climate change and animal sentience are formative concerns in many early modern texts The readings infuse a new urgency in familiar works by Shakespeare Sidney Spenser Marlowe Raleigh Jonson Donne and Milton At the same time the book forecasts how ecocriticism will bolster the reputation of less canonical authors like Drayton Wroth Bruno Gascoigne and Cavendish Its chapters trace provocative affinities between topics such as Pythagorean ecology and the Gaia hypothesis Ovidian tropes and green phenomenology the disenchantment of Nature and the Little Ice Age and early modern pastoral poetry and modern environmental ethics It also examines the ecological onus of Renaissance poetics while showcasing how the Elizabethans sense of a sophisticated interplay between nature and art can provide a precedent for ecocriticism s current understanding of the relationship between nature and culture as mutually constructive Situating plays and poems alongside an eclectic array of secondary sources including herbals forestry laws husbandry manuals almanacs and philosophical treatises on politics and ethics Borlik demonstrates that Elizabethan and Jacobean authors were very much aware of and concerned about the impact of human beings on their natural surroundings

Water and Cognition in Early Modern English Literature Nicholas Helms, Steve Mentz, 2025-10-01 Water and cognition seem unrelated things the one a physical environment and the other an intellectual process The essays in this book show how bringing these two modes together revitalizes our understanding of both Water and especially oceanic spaces have been central to recent trends in the environmental humanities and premodern ecocriticism Cognition including ideas about the extended mind and distributed cognition has also been important in early modern literary and cultural studies over the past few decades This book aims to think water and cognition as distinct critical modes and also to combine them in what we term watery thinking Water and Cognition brings together cognitive science and ecocriticism to ask how the environment influences how humans think and how they think about thinking The collection explores how water as element as environment and as part of our bodies affects the way early modern and contemporary discourses understand cognition

Poison on the early modern English stage Lisa Hopkins, Bill Angus, 2023-08-29 Many early modern plays use poison most famously Hamlet where the murder of Old Hamlet showcases the range of issues poison mobilises Its orchard setting is one of a number of sinister uses of plants which

Modern English Essays ... Ernest Rhys,1922 **The Politics and Poetics of Contemporary English Tragedy** Sean Carney,2013-01-01 The Politics and Poetics of Contemporary English Tragedy is a detailed study of the idea of the tragic in the political plays of David Hare Howard Barker Edward Bond Caryl Churchill Mark Ravenhill Sarah Kane and Jez Butterworth Through an in depth analysis of over sixty of their works Sean Carney argues that their dramatic exploration of tragic experience is an integral part of their ongoing politics This approach allows for a comprehensive rather than selective study of both the politics and poetics of their work Carney s attention to the tragic enables him to find a common discourse among the canonical English playwrights of an older generation and representatives of the nineties generation challenging the idea that there is a sharp generational break between these groups Finally Carney demonstrates that tragic experience is often denied by the social discourse of Englishness and that these playwrights make a crucial critical intervention by dramatizing the tragic *Disguise on the Early Modern English Stage* Professor Peter Hyland,2013-05-28 Disguise devices figure in many early modern English plays and an examination of them clearly affords an important reflection on the growth of early theatre as well as on important aspects of the developing nation In this study Peter Hyland considers a range of

practical issues related to the performance of disguise He goes on to examine various conceptual issues that provide a background to theatrical disguise the relation of self and other the meaning of mask and performance He looks at many disguise plays under three broad headings He considers moral issues the almost universal association of disguise with evil social issues sumptuary legislation clothing and the theatre and constructions of class gender and national or racial identity and aesthetic issues disguise as an emblem of theatre and the significance of disguise for the dramatic artist The study serves to examine the significant ways in which disguise devices have been used in early modern drama in England
