Psychology of Sport Injury Brewer, Britton W., Redmond, Charles, 2016-11-02 Written by a sport

psychology consultant and an athletic trainer Psychology of Sport Injury provides a thorough explanation of the elements and effects of sport injuries along with up to date research and insights for practical application *Majoring in Psychology*

Jeffrey L. Helms, Daniel T. Rogers, 2015-03-30 Updated to reflect the latest data in the field the second edition of Majoring in Psychology Achieving Your Educational and Career Goals remains the most comprehensive and accessible text for psychology majors available today The new edition incorporates the most up to date research as well as recent changes to the GRE Reveals the benefits of pursuing a psychology degree and shows students how to prepare for a career or to continue with graduate study in the field Features a wide range of supplemental exercises and materials plus topical contributions written by national and international figures in their respective psychology subfields Online support materials for instructors include Powerpoint slides and test banks to support each chapter *Measuring the Effects of Racism* Robert T. Carter, Alex L.

Pieterse, 2020-07-21 A large body of research has established a causal relationship between experiences of racial discrimination and adverse effects on mental and physical health In Measuring the Effects of Racism Robert T Carter and Alex L Pieterse offer a manual for mental health professionals on how to understand assess and treat the effects of racism as a psychological injury Carter and Pieterse provide guidance on how to recognize the psychological effects of racism and racial discrimination They propose an approach to understanding racism that connects particular experiences and incidents with a person s individual psychological and emotional response They detail how to evaluate the specific effects of race based encounters that produce psychological distress and possibly impairment or trauma Carter and Pieterse outline therapeutic interventions for use with individuals and groups who have experienced racial trauma and they draw attention to the importance of racial awareness for practitioners The book features a racial trauma assessment toolkit including a race based traumatic stress symptoms scale and interview schedule Useful for both scholars and practitioners including social workers educators and counselors Measuring the Effects of Racism offers a new framework of race based traumatic stress that helps legitimize psychological reactions to experiences of racism **Arabic Psychological Tests and Their English Versions**

Ahmed M. Abdel-Khalek, 2020-11-09 Measurement is an important concern for the progress of psychology both as a basic science and as a field of application The development of psychological research and practice would not be possible without sound assessment and measuring procedures This book presents a collection of personality and psychopathology scales developed originally in Arabic and translated into English since self reports and questionnaires play a prominent role in psychological research and practice as they are simple and cost less than other methods of assessment Furthermore these scales are suitable in surveys and epidemiological studies with large samples This book will be useful in different disciplines such as psychology psychiatry epidemiology gerontology social work and social sciences Autogenic Training Micah R.

Sadigh, 2020-01-17 Using repeated sets of exercises meant to relax and desensitize the mind autogenic training equips patients to deal with chronic conditions such as anxiety disorders recurring pain and stress Patients learn how to gain control

over their symptoms and improve coping to reduce suffering This expanded edition presents practitioners with a concise exploration of autogenic technique and its clinical use for patients especially in treating those suffering from chronic pain syndrome and disrupted sleep

PSYCHOLOGY: Research Innovations in young minds Dr Aneesh V Appu & Dr Subha Sachithanand, 2020-09-23 For the past years more emphasis has been given in understanding the level of cultural adjustment that individuals face on migrating to a new country Not much attention has been given on studying repatriates This phenomenological study deals with the experiences of 17 Indian repatriates their emotional challenges and the various coping strategies that they had to employ in order to smoothen their repatriation process on returning to their home country Six main themes were identified on applying thematic analysis to the individual semi structured interviews relief from hardships faced in the host country stronger bond with the home country feeling of being an alien in your home country dynamic factors upon repatriation emotive encounters and coming to terms with chaos associated with repatriation Findings from the study shows that the repatriates had faced many emotional challenges such as feeling of alienation difficulty in adjusting to the old culture and getting a job adjusting to the new work settings grief on leaving the host country idleness and laziness felt on repatriation societal and familial pressure and financial struggles Financial security positive adjustment to the new work settings and the new income scale lessons learned from the hostile experiences faced while abroad pre arrangements done in the home country before repatriating and reintegrating host culture into home culture served as an effective coping strategy which eventually helped them in their successful repatriation over time
