Haciendo Memoria En El Pais Del Nunca Mas:

Haciendo memoria en el país de nunca más Inés Dussel, Silvia Finocchio, Silvia Gojman, 2003 **La historia política del Nunca Más** Emilio Crenzel, 2024-01-25 En la noche del 20 de septiembre de 1984 a menos de un año del retorno de la democracia en la Argentina la Comisión Nacional sobre la Desaparición de Personas Conadep entregó al presidente Alfonsín el informe de su investigación Su título era Nunca Más En la Plaza de Mayo setenta mil personas participaban del acto Este libro reconstruye la historia del emblemático informe y muestra las luchas libradas en torno a la memoria de un pasado conflictivo y las pugnas entre distintos actores por establecer una interpretación En un relato claro y apasionante Emilio Crenzel cuenta cómo fue la elaboración del informe su circulación y sus usos en la esfera pública y explica por qué la frase Nunca Más sintetiza en el presente un sentido sobre este pasado pero a la vez sobre el futuro Basándose en entrevistas a los integrantes de la Conadep dirigentes políticos miembros de los organismos de derechos humanos e intelectuales muestra cómo la investigación logró constituir un nuevo conocimiento y una nueva verdad pública sobre las desapariciones y sus responsables Examina además la utilización del texto en el Juicio a las Juntas Militares y en numerosas producciones culturales sobre el tema A cuarenta años del Nunca Más cuando vemos crecer las voces que niegan justifican y reivindican la persecución política organizada por la dictadura esta nueva edición actualizada del libro de Emilio Crenzel se vuelve fundamental para repensar la memoria del pasado reciente que no es lineal sino materia de disputa y controversia **The Memory of the Argentina**

Disappearances Emilio Crenzel, 2012-01-30 This book is an examination of the history of the Nunca Más report issued by Argentina's National Commission on the Disappearance of Persons established to investigate the disappearances perpetrated by state in the 1970s Given the canonical nature of Nunca Más it sheds light on Argentina's social memory of its violent past

Memory, Truth, and Justice in Contemporary Latin America Roberta Villalón, 2017-07-06 This powerful text provides the first systematic analysis of the second wave of memory and justice mobilization throughout Latin America Pairing clear explanations of concepts and debates with case studies the book offers a unique opportunity for students to interpret the history and politics of Latin American countries The contributors provide insight into human rights issues and grassroots movements that are essential for a broader understanding of struggles for justice memory and equality across the globe especially during our current unsettled times of political polarization violence repression and popular resistance worldwide

The Politics of Memory Alexandra Barahona De Brito, Carmen Gonzalez Enriquez, Paloma Aguilar, 2001-04-05 One of the most important political and ethical questions faced during a political transition from authoritarian or totalitarian to democratic rule is how to deal with legacies of repression Indeed some of the most fundamental questions regarding law morality and politics are raised at such times as societies look back to understand how they lost their moral and political compass failing to contain violence and promote the values of tolerance and peace The Politics of Memory sheds light on this important aspect of transitional politics assessing how Portugal Spain the countries of Central and Eastern Europe and

Germany after reunification Russia the Southern Cone of Latin America and Central America as well as South Africa have confronted legacies of repression The book examines the presence or absence of three types of official efforts to come to terms with the past truth commissions trials and amnesties and purges In addition it looks at unofficial initiatives emerging from within society usually involving human rights organisations HROs churches or political parties Where relevant it also examines the politics of memory whereby societies re work the past in an effort to come to terms with it both during the transitions and long after official transitional policies have been implemented or forgotten The book also assesses the significance of forms of reckoning with the past for a process of democratization or democratic deepening It also focuses on the role of international actors in such processes as external players are becoming increasingly influential in shaping national policy where human rights are concerned *The Legacy of Human Rights Violations in the Southern Cone* Luis

Roniger, Mario Sznajder, 1999-07-15 The new democracies of the Southern Cone have publicly professed to reject and condemn the uses of the state power in various forms against citizens under military rule thus dissociating themselves from their predecessors And yet the experiences of military rule have become a grim legacy raising major issues and dilemmas to the forefront of the public agenda *The Legacy of Human Rights Violations in the Southern Cone* Argentina Chile and Uruguay analyses in a systematic and comparative way the struggles and debates the institutional paths and crises that took place in these societies following redemocratization in the 1980s and 1990s as they confronted the legacy of violations committed under previous authoritarian governments and as the democratic administrations tried to balance normative principles and political contingency The book also traces how these trends affected the development of politics of oblivion and memory and the restructuring of collective identity and solidarity following redemocratization *Oxford Studies in Democratization* is a series for scholars and students of comparative politics and related disciplines The series will concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series will primarily be Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia **Genocide as Social Practice** Daniel Feierstein, 2014-05-14

Genocide not only annihilates people but also destroys and reorganizes social relations using terror as a method In *Genocide as Social Practice* social scientist Daniel Feierstein looks at the policies of state sponsored repression pursued by the Argentine military dictatorship against political opponents between 1976 and 1983 and those pursued by the Third Reich between 1933 and 1945 He finds similarities not in the extent of the horror but in terms of the goals of the perpetrators The Nazis resorted to ruthless methods in part to stifle dissent but even more importantly to reorganize German society into a *Volksgemeinschaft* or people's community in which racial solidarity would supposedly replace class struggle The situation in Argentina echoes this After seizing power in 1976 the Argentine military described its own program of forced disappearances torture and murder as a process of national reorganization aimed at remodeling society on Western and Christian lines For Feierstein genocide can be considered a

technology of power a form of social engineering that creates destroys or reorganizes relationships within a given society It influences the ways in which different social groups construct their identity and the identity of others thus shaping the way that groups interrelate Feierstein establishes continuity between the reorganizing genocide first practiced by the Nazis in concentration camps and the more complex version complex in terms of the symbolic and material closure of social relationships later applied in Argentina In conclusion he speculates on how to construct a political culture capable of confronting and resisting these trends First published in Argentina in Spanish *Genocide as Social Practice* has since been translated into many languages now including this English edition The book provides a distinctive and valuable look at genocide through the lens of Latin America as well as Europe *Postmemories of Terror* S. Kaiser,2005-12-10

Postmemories of Terror focuses on how young Argentineans remember the traumatic events of the military dictatorship 1976-83 This fascinating work is based on oral histories with sixty three young people who were too young to be directly victimized or politically active during this period All were born during or after the terror and possessed an entirely mediated knowledge of it Susana Kaiser explores how the post dictatorship generation was reconstructing this past from three main sources inter generational dialogue education and the communication media These conversations discuss selected and recurrent themes like societal fears and silences remembering and forgetting historical explanations and accountability Together they contribute to our understanding of how communities deal with the legacy of terror

A History of Political Murder in Latin America W. John Green,2015-04-27 A sweeping study of political murder in Latin America This sweeping history depicts Latin America's pan regional culture of political murder Unlike typical studies of the region which often focus on the issues or trends of individual countries this work focuses thematically on the nature of political murder itself comparing and contrasting its uses and practices throughout the region W John Green examines the entire system of political murder the methods and justifications the perpetrators employ the victims and the consequences for Latin American societies Green demonstrates that elite and state actors have been responsible for most political murders assassinating the leaders of popular movements and other messengers of change Latin American elites have also often targeted the potential audience for these messages through the region's various dirty wars In spite of regional differences elites across the region have displayed considerable uniformity in justifying their use of murder imagining themselves in a class war with democratic forces While the United States has often been complicit in such violence Green notes that this has not been universally true with US support waxing and waning A detailed appendix exploring political murder country by country provides an additional resource for readers *Memory and Transitional Justice in Argentina and Uruguay* Francesca Lessa,2013-04-11

This interdisciplinary study explores the interaction between memory and transitional justice in post dictatorship Argentina and Uruguay and develops a theoretical framework for bringing these two fields of study together through the concept of critical junctures **Concurso de ensayos: "Argentina: los lugares de la memoria"** , **Argentine cinema** Daniela

Ingruber, Ursula Prutsch, 2012 **Governing the Child in the New Millennium** Kenneth Hultqvist, Gunilla Dahlberg, 2013-01-11 The contributors and editors of this volume begin from the assumption that the changes wrought by globalization compel us to reflect upon the status of the child and childhood at the end of the 20th century Their essays consider what techniques and technologies are used to govern the child what role the family plays what is global and what is culturally specific in the changes and how the subject is constructed and construed *Social Sciences* Lawrence Boudon, Katherine D. McCann, 2003-09-01 The one source that sets reference collections on Latin American studies apart from all other geographic areas of the world The Handbook has provided scholars interested in Latin America with a bibliographical source of a quality unavailable to scholars in most other branches of area studies Latin American Research Review Beginning with volume 41 1979 the University of Texas Press became the publisher of the Handbook of Latin American Studies the most comprehensive annual bibliography in the field Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines the Handbook alternates from year to year between social sciences and humanities The Handbook annotates works on Mexico Central America the Caribbean and the Guianas Spanish South America and Brazil as well as materials covering Latin America as a whole Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas The Handbook of Latin American Studies is the oldest continuing reference work in the field Lawrence Boudon of the Library of Congress Hispanic Division has been the editor since 2001 and Katherine D McCann has been assistant editor since 2000 The subject categories for Volume 59 are as follows Anthropology Economics Geography Government and Politics International Relations Sociology Electronic Resources for the Social Sciences **Social Studies** **Education in Latin America** Sebastián Plá, E. Wayne Ross, 2022-08-30 This book offers a path forward for the growing collaboration in social studies education between Global North and South educators practitioners and researchers In this volume leading critical social studies education researchers from Latin America explore the constant presence of colonialism capitalism patriarchy and state violence Chapter contributors represent a large part of the continent and offer perspectives on a wide range of topics including recent history and memory cultural dimensions of social studies education and comparative studies among Latin American countries By bringing together this critical work in one volume the book fosters conversation across geographic regions to transcend the national contexts for which these analyses are generally produced This collection provides insights into issues of curriculum teaching teacher education and research in the region and will be of interest to readers both familiar with and new to research on social studies history citizenship and geography education in Latin America Educación y la mirada Inés Dussel, Daniela Gutiérrez, 2014-08-01 La imagen es hoy uno de los modos de representación más extendidos Lo visual coloniza otros registros y estimula tanto como satura nuestra capacidad de conocer y conmovernos ante otras experiencias humanas Si algo nos define hoy es ser espectadores de eventos visuales que

condicionan nuestro vínculo con la realidad y las fantasías Sin embargo la reflexión sobre cómo se forma y qué produce la mirada tiene escasa presencia en la discusión cultural y pedagógica y aún menos en la práctica educativa En este libro se presentan contribuciones de diversos autores que analizan las características más importantes del régimen visual actual y sus implicancias para pensar la educación y la pedagogía Carlos Monsivís Rossana Reguillo Leonor Arfuch Sandra Carli Nelly Richard Jorge Larrosa Diana Paladino Silvia Serra Laura Malosetti Costa Rosa María Bueno Fischer Estanislao Antelo Carlos Skliar Silvia Duschatzky Joseph Tobin Gustavo Fischman David Benavente Dino Pancani Inés Dussel y Jan Masschelein aportan reflexiones y experiencias de trabajo que buscan construir sentidos sobre la saturación y la banalización visual a la que estamos sometidos También postulan críticas a los usos ilustrativos de la imagen en las escuelas y a los discursos que elaboramos para entenderlas y acercan otras lecturas y otros imágenes para la educación Este texto propone una nueva pedagogía de la mirada que en diálogo con el mundo en que vivimos haga lugar a vínculos más productivos entre palabras e imágenes y contribuya a reflexionar sobre la ética del mirar que es tanto un acto de conocimiento como un acto político
