Maritime Logistics A Complete Guide To Effective Shipping And Port Management:

Maritime Logistics Dong-Wook Song, Photis Panayides, 2012-04-03 Globalisation and the rapid increase in world trade in the past decade have contributed to greater demand for international transport and logistics and consequently the expansion of the maritime industry. The dramatic changes in the mode of world trade and cargo transportation make it more important than ever to have a clear understanding of the way in which freight is transported by sea and the role of ports in this exchange. *Maritime Logistics* examines the latest development knowledge and practices taking place in logistics and supply chain within the port and shipping industry. Written by a team of international experts who provide a truly global perspective on this increasingly key area of logistics, the book covers everything that students of logistics as well as those working within the industry should know and understand including shipping lines, dry bulk and port-centric logistics.

Port, Maritime and Hinterland Development in Southeast Asia (UUM Press) Ahmad Bashawir Abdul Ghani, 2014-10-01 This book addresses myriad of issues and challenges in the field of port, maritime and hinterland development in Southeast Asia from multidisciplinary perspectives. Instead of focusing on only certain aspects of the maritime discipline, the book presents a range of different viewpoints from business and management, historical development, geography, law and others. Although the book is made in the form of an edited book, readers will benefit and gain knowledge on many important issues in the field of port, maritime and hinterland development in Southeast Asia. This book will also be beneficial to all parties in this area including policy and decision makers, government officials, port authorities, port operators or terminal operators, maritime related service providers such as freight forwarders in port, ship agents, navigation officers, customs brokers, stevedores and other port users, shippers, passengers and carriers. This book is also catered for those involved in maritime research or students who take maritime subject or to the public who are interested in maritime issues. The contributors of this book are experts from diverse backgrounds with extensive experience in the fields of port, maritime and hinterland development. This is because we believe that maritime studies are intertwined with many aspects of life from environmental management to disputes at the sea which will affect the maritime trade industry. Hence issues in this book are also various. However the emphasis is on the development of port, maritime and hinterland sector in Southeast Asia.

ITF Round Tables Port Investment and Container Shipping Markets International Transport Forum, 2015-05-25 This report examines the issues that need to be considered before the decision to proceed to costly expansions with long life spans and a structural influence on the local and national economy. The report benefits from a case study of Chile.
