Do you want to learn how to trade in the Forex market Do you want to understand the secrets and the strategies to become a successful Forex trader If yes then keep reading The Forex market is a complex world and everyone is trying to look for the goose that lays the golden egg In this case we are talking about that one trade that will simply propel someone to new heights People imagine that getting into the Forex market is easy that pretty soon they will be diving into cash the way Scrooge McDuck takes a joyful dive into his pile of gold coins That rarely happens But the prospect of making some incredible profits still exists provided you are ready to navigate the complexities of the Forex market In fact here is something you should know This is a real market It is the largest financial market in the world and you have to treat it as such You can trade in this market part time or you can do it every day In fact you can make it your business the business of trading People have actually quit their day jobs to get into the world of Forex trading However that is something that you should not even consider if you are starting out Do not make rash decisions in the hope that you are going to master the markets and strike rich in no time Those are wonderful ambitions but are not backed by experience You see trading can be learned of course but the experience can t be transmitted It has to be constructed by every individual through a personal effort of understanding and hard work Another thing that is important to

understand is that you will never ever stop learning Markets are changing every day and the Forex is a living organism that evolves in the same way as all its traders Always remember that although it seems to be an unknown entity at the end of the day the market is merely made up of investors large and small from all corners of the world each with his or her own emotions psychology and predictable behaviors and reactions Do you ever walk up to a doctor and ask him or her if there is a shortcut to reaching where he or she has reached Would you do that to an engineer or a renowned sportsperson These people have developed their skills over time They have honed their abilities as much as possible before they could use them fluently It is the same with trading in the Forex market You need to put in effort to learn the tricks of the trade no pun intended Learn to move on after losses Don't dwell on missed trades or lost revenue after you decide to close There will be hundreds of opportunities in the future Follow your plan and follow your system Practice every day and experience will come with time patience and discipline Don't look outside for what's already inside Leave your ego behind Be humble and smart You can't decide where the market will go so learn to see where it wants to lead you not the other way around Exit bad trades and hold on to good trades Set yourself a goal and stop trading when you have reached it This book covers the following topics Introduction to the Forex Market Forex Terminology Defining Forex Trading Benefits of Forex Trading The Principle Currencies Explained The Rules and The Players And much more Do you want to learn more Don't wait anymore press the buy now button and get started *Trading Rules that Work* Jason Alan Jankovsky, 2011-01-20 *Trading Rules that Work* introduces you to twenty eight essential rules that can be shaped to fit any trading approach whether you're dealing in stocks commodities or currencies Engaging and informative *Trading Rules that Work* outlines the deeper psychology behind each of these accepted trading rules and provides you with a better understanding of how to make those rules work for you
