Camera Indica:

Camera Indica Christopher Pinney, 1997 A wedding couple gazes resolutely at viewers from the wings of a butterfly a portrait surrounded by rose petals commemorates a recently deceased boy These quiet but moving images represent the changing role of photographic portraiture in India a topic anthropologist Christopher Pinney explores in *Camera Indica* Studying photographic practice in India Pinney traces photography's various purposes and goals from colonial through postcolonial times He identifies three key periods in Indian portraiture the use of photography under British rule as a quantifiable instrument of measurement the later role of portraiture in moral instruction and the current visual popular culture and its effects on modes of picturing Photographic culture thus becomes a mutable realm in which capturing likeness is only part of the project Lavishly illustrated Pinney's account of the change from depiction to invention uncovers fascinating links between these evocative images and the society and history from which they emerge **The Camera as Actor** Amy Cox Hall, 2020-11-29 Looking beyond the impact photographs have on the perpetuation and expression of social norms and stereotypes and the influence of the act of taking a photograph this new collection brings together international scholars to examine the camera itself as an actor Bringing the camera back into view this volume furthers our understanding of how and in what ways imaging technology shapes us our lives and the representations out of which we fashion knowledge base our judgments and ultimately act Through a broad range of case studies the authors in this collection make the convincing claim that the camera is much more than a mechanical device brought to life by the photographer This book will be of interest to scholars in photography visual culture anthropology and the history of photography **Empires of the Senses** Andrew Jon Rotter, 2019 A deeply researched study this book offers the first sensory history of the British empire in India and the United States in the Philippines reflecting on how senses structured the colonizers perception of the colonized and vice versa and impacted the British and American imperial projects **Colonialist Photography** Eleanor M. Hight, Gary D. Sampson, 2013-06-17 Colonialist Photography is an absorbing collection of essays and photographs exploring the relationship between photography and European and American colonialism The book is packed with well over a hundred captivating images ranging from the first experiments with photography as a documentary medium up to the decolonization of many regions after World War II Reinforcing a broad range of Western assumptions and prejudices Eleanor M Hight and Gary D Sampson argue that such images often assisted in the construction of a colonial culture **Territory of Desire** Ananya Jahanara Kabir, 2009 A result of territorial disputes between India and Pakistan since 1947 exacerbated by armed freedom movements since 1989 the ongoing conflict over Kashmir is consistently in the news Taking a unique multidisciplinary approach Territory of Desire asks how and why Kashmir came to be so intensely desired within Indian Pakistani and Kashmiri nationalistic imaginations **The Camera as Witness** Joy L. K. Pachuau, Willem van Schendel, 2015-04-13 The book challenges the stereotypes about and narrates the daily lives of the Mizos through the use of vernacular photography

Celluloid Deities Preminda Jacob, 2008-10-23 Towering billboards featuring photorealistic portraits of popular cinema stars and political leaders dominated the cityscape of Chennai in the south Indian state of Tamil Nadu throughout the second half of the twentieth century Studying the manufacture and reception of these billboards_ known locally as banners and cutouts_ within the context of the entwined histories of the cinema industry and political parties in Tamil Nadu Preminda Jacob reveals the broader significance of these fragments of visual culture beyond their immediate function as pretty pieces of advertising Jacob analyzes the juxtaposition of cinematic and political imagery in the extra cinematic terrain of Chennai s city streets and how this placement was pivotal to the elevation of regional celebrities to cult status When interpreting these images and discussing their political and cultural resonance within the Tamil Nadu community Jacob draws upon multiple perspectives to give appropriate context to this fascinating form of visual media
