Candide Voltaire, 2018-04-30 *Candide ou l'Optimisme* is a French satire first published in 1759 by Voltaire a philosopher of the Age of Enlightenment The novella has been widely translated with English versions titled *Candide* or *All for the Best* 1759 *Candide* or *The Optimist* 1762 and *Candide Optimism* 1947 Ever since 1759 when Voltaire wrote *Candide* in ridicule of the notion that this is the best of all possible worlds this world has

been a gayer place for readers Voltaire wrote it in three days and five or six generations have found that its laughter does not grow old *Candide* has not aged Yet how different the book would have looked if Voltaire had written it a hundred and fifty years later than 1759 It would have been among other things a book of sights and sounds A modern writer would have tried to catch and fix in words some of those Atlantic changes which broke the Atlantic monotony of that voyage from Cadiz to Buenos Ayres When Martin and *Candide* were sailing the length of the Mediterranean we should have had a contrast between naked scarped Balearic cliffs and headlands of Calabria in their mists We should have had quarter distances far horizons the altering silhouettes of an Ionian island Colored birds would have filled Paraguay with their silver or acid cries

somehow I am still in love with life This ridiculous weakness is perhaps one of our most melancholy propensities for is there anything more stupid than to be eager to go on carrying a burden which one would gladly throw away to loathe one's very being and yet to hold it fast to fondle the snake that devours us until it has eaten our hearts away Michael Gerber

think I might have done a better job of it than most Why because I am native French and studied this literature in college because I translated books I especially liked and read several times because as the illustrator I took great care in understanding what the author was talking about because as a published writer I can better get at the author's true meaning Maybe because of all the above Further comment in doing the illustration I tried to be as accurate as possible and did much research to accomplish this The artwork must necessarily match the text but the text must correspond to the illustration as well In Chapter XXIII I illustrated the execution of Admiral Byng according to military records and history books In this case Voltaire got it wrong The original text quatre soldats post s vis vis de cet homme lui tir rent chacun trois balles dans le cr ne English translation four soldiers posted opposite this man each shot three bullets in the skull This is quite impossible for many reasons that I will not elucidate to spare the reader precious time Historical records Nine marines in their scarlet uniforms lined up in three rows with the rear row held in reserve after a few agonizing moments the man dropped his handkerchief the six marines fired and he fell gently on his side Being a retired naval officer myself this is the only digression I permitted myself I translated Voltaire's text as written but I have maintained historical accuracy in the artwork One more In all the illustrations I have seen of *Candide* the artwork always represented Voltaire's sheep as European sheep South American red sheep that were used as pack animal were in fact llamas so I maintained historical accuracy in the artwork here as well Translating this masterpiece increased my appreciation of its worth I very much enjoyed rendering it into modern English and I hope you enjoy reading it
