Canine and Feline Gastroenterology Brent D. Jones, William D. Liska, 1986 *BSAVA Manual of Canine and Feline Gastroenterology* David A. Thomas, J. W. Simpson, Ed J. Hall, 1996 This manual is a guide to the latest medical and surgical treatment of gastroenterological cases Clinical problems likely to occur are reviewed and procedures such as endoscopy biopsy taking and surgery are described in detail

BSAVA Manual of Canine and Feline Gastroenterology Ed J. Hall, David A. Williams, Aarti Kathrani, 2020

BSAVA Manual of Canine and Feline Gastroenterology Edward Hall, James W. Simpson, David A. Williams, 2005-04-15 Building on the success of the previous edition the BSAVA Manual of Canine and Feline Gastroenterology 2nd edition incorporates not only the new information available since the original publication but also additional chapters on diagnostic techniques and presenting complaints Part 1 considers diagnostic techniques with chapters on the approach to a gastrointestinal case laboratory evaluation imaging endoscopy immunology and biopsy The completely new chapter on imaging of the gastrointestinal tract liver and pancreas covers in detail the modalities most frequently employed in small animal practice namely radiography and ultrasonography whilst also briefly discussing more advanced techniques of Doppler and harmonic ultrasonography scintigraphy CR and MRI The short chapters in Part 2 provide a practical approach to investigating presenting complaints dysphagia and regurgitation vomiting acute and chronic diarrhoea malabsorption GI haemorrhage dyschezia and tenesmus jaundice hepatic encephalopathy and infectious diseases All follow the same basic format outlining the clinical features ranking the differential diagnoses in order of importance and providing step by step algorithms for diagnosis The more traditional organ based systems approach in Part 3 has been expanded from the previous edition to include chapters on disorders of the oral cavity perineum and anus and biliary system Each chapter is presented in a similar style starting with a brief description of

relevant anatomy and physiology then detailing diagnostic tests and concluding with a discussion of the disorders that can be encountered including their treatment The completely new final part contains chapters devoted to critical care assisted feeding techniques and an overview of therapeutics The chapters written by a host of international authors all experts in their field are accompanied throughout by full colour illustrations

Frontiers in Canine and Feline Gastrointestinal

Disease Aarti Kathrani,Romy M Heilmann,2024-06-24 Clinical signs of gastrointestinal disease are amongst the most common presenting complaints in small animal veterinary practice Over the last decade many scientific advances have been made regarding determining the etiopathogenesis improving diagnostics and optimizing the treatment of various gastrointestinal diseases in dogs and cats Despite this there are still large knowledge gaps in our understanding of the underlying pathogenesis and therefore the development of non invasive diagnostic methods or efficacious treatments for common gastrointestinal diseases such as chronic inflammatory enteropathy canine protein losing enteropathy and feline enteric associated T cell lymphoma 2 Therefore the publication of new scientific findings focused on canine and feline gastroenterology will help to advance our understanding diagnosis and treatment of various gastrointestinal diseases The aim of the present Special Issue was to gather in one publication the most recent advances in canine and feline gastrointestinal research
