Bailey,Djwhal Khul,2012-12-01 The science of esoteric astrology is said to be the basic occult science of the future Astrology is described in this book as the science of relationships a science which deals with those conditioning energies and forces which play through and upon the whole field of space and all that is found within it **"Astrology for All" Series** ,1917 *Rulers of the Horoscope* Alan Oken,2008-04-01 A practical and thorough treatment on the meanings of all aspects of planetary and house rulerships Rulers of the Horoscope Finding Your Way Through the Labyrinth is the definitive sourcebook on this topic Alan Oken masterfully guides you through the labyrinth of delineating and synthesizing the complex interchange between rulers of houses and their signs and the nature of the houses they occupy and rule He defines and describes derivative houses planetary and house rulerships dispositorships mutual reception and the compatibility and nature of importance of their placement in the horoscope The astrological charts of well known people are illustrated with detailed descriptions of planetary relationships their positive and negative aspects and the traditional and modern interpretation of the houses Alan Oken s in depth exploration of the ruler for each of the twelve houses and the rulers of the rising sign is an invaluable tool for astrology students and teachers alike *The Energetic Anatomy of Life* Sabine Rauch,Olle Svensson,2025-05-15 Every living being is made up of a unique pattern of energies Every person is born with specific individual energies and is exposed to a variety of internal and external influences throughout their lives that shape their health and path through life This energetic anatomy is the basis of energy medicine Energy medicine is increasingly becoming the focus of complementary healing methods and is used by many patients in addition to conventional medicine Many therapists deal with different types of energetic methods but often there is still a lack of knowledge regarding the philosophical foundations and the overarching holistic contexts

Energetic basic models from Traditional Chinese Medicine TCM and Ayurvedic medicine with their chakra teachings are combined with the knowledge from psychosynthesis and the traditional knowledge of the 7 energetic archetypes 7 rays and the 12 energetic archetypes from astrology in order to be able to show a unique individual overall picture the energetic anatomy of each person In addition to a theoretical part the reader will find a practical part with the possibility of energetic diagnosis and another part with energetic coaching with many exercises yoga breathing exercises attention exercises exercises from psychosynthesis nutritional recommendations etc and assistance for important lifestyle changes This book is therefore primarily intended for therapists who want to deal intensively with energy medicine and is intended to serve as a reference work and as an aid in coaching your patients At the same time it is also intended to help people in their search for SELF knowledge who have embarked on the path of spiritual development or want to embark on this path Knowledge of one's own energetic characteristics can help individuals to use their energetic strengths and weaknesses sensibly in the course of life for their own physical emotional and mental health and individual life goals *Esoteric Astrology* Alan Leo,1913
