Designing Identity Thelma K. Thomas, 2016-03-22 Ideals of character and beauty and conceptions of self and society were in flux during Late Antiquity a period of extensive dramatic cultural upheaval for the Roman world as the extraordinary growth of Christianity eclipsed paganism Textiles from Late Antiquity document transformations of cultural traditions and societal values at the most intimate level of the individual body and the home These textile artifacts are fragile preserved only in arid conditions often in fragments and only rarely intact The textiles selected for the exhibition *Designing Identity* at New York University's Institute for the Study of the Ancient World present an aesthetic of vibrant colors fine materials technical virtuosity of professional production and variations on designs that display personal identity in the clothing of men women and children as well as hopes for prosperity and protection in the textile furnishings of households Prized for their artistry since the earliest discoveries beginning at the turn of the nineteenth century such textiles were eagerly collected by designers artists scholars museums and captains of industry This exhibition catalogue explores the parallel histories of ancient textile production and consumption and the modern business of collecting Late Antique textiles Contributors include Jennifer Ball Edward Bleiberg Kathrin Colburn Helen Evans Christine Kondoleon Brandie Ratliff Thelma Thomas and Elizabeth Williams Cover photograph Bruce M White 201

Byzantine Dress: A Guide Jennifer Ball, 2024-12-17 This book offers approaches to the study of Byzantine dress of elites and non elites in sacred and secular modes from the beginning of the Empire in the fourth century until the fifteenth century Byzantine dress is considered from within and outside of the Empire and examines both artifactual remains as well as emphasizing studies that elucidate Byzantine dress when few or no artifacts exist *Byzantine Dress A Guide* tackles current conceptual frameworks in the first three chapters and considers identity and sartorial signaling among Byzantines as well as foreigners in images as well as actual items of dress A second section addresses material considerations reflecting on construction and its effect on value The interpretation of archaeological material is analyzed along with reconstruction and context Dress as part of rituals at court church and in various ceremonies is the focus of the third section The final two chapters bring Byzantine dress into conversation with dress studies more broadly A discursive chapter argues for a fashion system within the Byzantine Empire which has been largely seen as pre dating the notion of fashion The final chapter concerns the display interpretation and conservation of fragmentary material in a museum context This book aims toward a general audience new to the subject of Byzantine dress Specialists in Byzantine studies and dress studies more generally will find the attention to current scholarship and archaeological interpretation invaluable for research and the book will also appeal to an audience new to the subject of Byzantine dress

Fashion History Linda Welters, Abby

Lillethun, 2018-02-08 Fashion History A Global View proposes a new perspective on fashion history Arguing that fashion has occurred in cultures beyond the West throughout history this groundbreaking book explores the geographic places and historical spaces that have been largely neglected by contemporary fashion studies bringing them together for the first time Reversing the dominant narrative that privileges Western Europe in the history of dress Welters and Lillethun adopt a cross cultural approach to explore a vast array of cultures around the globe They explore key issues affecting fashion systems ranging from innovation production and consumption to identity formation and the effects of colonization Case studies include the cross cultural trade of silk textiles in Central Asia the indigenous dress of the Americas and of Hawai i the cosmetics of the Tang Dynasty in China and stylistic innovation in sub Saharan Africa Examining the new lessons that can be deciphered from archaeological findings and theoretical advancements the book shows that fashion history should be understood as a global phenomenon originating well before and beyond the fourteenth century European court which is continually and erroneously cited as fashion s birthplace Providing a fresh framework for fashion history scholarship Fashion History A Global View will inspire inclusive dress narratives for students and scholars of fashion anthropology and cultural studies
