Evaluation M.Y. Ivory, 2013-06-29 Among all information systems that are nowadays available web sites are definitely the ones having the widest potential audience and the most significant impact on the everyday life of people Web sites contribute largely to the information society they provide visitors with a large array of services and information and allow them to perform various tasks without prior assumptions about their computer literacy Web sites are assumed to be accessible and usable to the widest possible audience Consequently usability has been recognized as a critical success factor for web sites of every kind Beyond this universal recognition usability still remains a notion that is hard to grasp Summative evaluation methods have been introduced to identify potential usability problems to assess the quality of web sites However summative evaluation remains limited in impact as it does not necessarily deliver constructive comments to web site designers and

developers on how to solve the usability problems Formative evaluation methods have been introduced to address this issue Evaluation remains a process that is hard to drive and perform while its potential impact is probably maximal for the benefit of the final user This complexity is exacerbated when web sites are very large potentially up to several hundreds of thousands of pages thus leading to a situation where evaluating the web site is almost impossible to conduct manually Therefore many attempts have been made to support evaluation with Models that capture some characteristics of the web site of interest

AUUGN ,2003 World Wide Web Marketing Jim Sterne,2002-04-08 Here it is The bestselling guide to online marketing is now back in a new expanded edition Popular speaker and author Jim Sterne updates all information providing marketing and advertising professionals with the ultimate how to guide to succeed in today's hyper competitive online world Taking the same practical and detailed approach that has made his book an industry classic Sterne shows how to apply classic marketing strategies to the latest technologies and explores the Web's impact on the way we do business Readers will find expert guidance on how to take advantage of hot new technologies and Web marketing tools that have emerged since the Second Edition was published including Interactivity Affiliate marketing Using B2B technology to sell through resellers Wireless marketing eMetrics or how to measure online marketing strategies Data mining techniques Hybrid Artificial Intelligent Systems, Part II Manuel Graña Romay, Emilio Corchado, M. Teresa Garcia-Sebastian, Alexandre Manhaes Savio,2010 Annotation This book constitutes the proceedings of the 5th International Conference on Hybrid Artificial Intelligent Systems held in San Sebastian Spain in June 2010 **Hybrid Artificial Intelligent Systems, Part II** Manuel Grana Romay,Alexandre Manhaes Savio,2010-06-14 th The 5 International Conference on Hybrid Artificial Intelligence Systems HAIS 2010 has become a unique established and broad interdisciplinary forum for researchers and practitioners who are involved in developing and applying symbolic and sub symbolic techniques aimed at the construction of highly robust and reliable problem solving techniques and bringing the most relevant achievements in this field Overcoming the rigid encasing imposed by the arising orthodoxy in the field of artificial intelligence which has led to the partition of researchers into so called areas or fields interest in hybrid intelligent systems is growing because they give freedom to design innovative solutions to the ever increasing complexities of real world problems Noise and uncertainty call for probabilistic often Bayesian methods while the huge amount of data in some cases asks for fast heuristic in the sense of suboptimal and ad hoc algorithms able to give answers in acceptable time frames High dimensionality demands linear and non linear dimensionality reduction and feature extraction algorithms while the imprecision and vagueness call for fuzzy reasoning and linguistic variable formalization Nothing impedes real life problems to mix difficulties presenting huge quantities of noisy vague and high dimensional data therefore the design of solutions must be able to resort to any tool of the trade to attack the problem Combining diverse paradigms poses challenging problems of computational and methodological interfacing of several previously incompatible approaches This is thus the setting of HAIS conference series and its increasing success is the proof

of the vitality of this exciting field **Information Architecture for the World Wide Web** Louis Rosenfeld, Peter Morville, 2002 Shows how to use both aesthetics and mechanics to create distinctive cohesive web sites that work Cover
