Diasporas and Foreign Direct Investment in China and India Min Ye, 2014-08-18 A comparative and historical analysis of foreign direct investment liberalization in China and India explaining how the return of these countries diasporas affects such liberalization *Foreign Direct Investment in China and India* Min Ye, National University of Singapore. East Asian

Institute, 2013 **Beyond Regimes** Duara Prasenjit, Elizabeth J. Perry, 2020-10-26 For many years China and India have been powerfully shaped by both transnational and subnational circulatory forces This edited volume explores these local and global influences as they play out in the contemporary era The analysis focuses on four intersecting topics labor relations legal reform and rights protest public goods provision and transnational migration and investment The eight substantive chapters and introduction share a common perspective in arguing that distinctions in regime type democracy versus dictatorship alone offer little insight into critical differences and similarities between these Asian giants in terms of either policies or performance A wide variety of subnational and transnational actors from municipal governments to international organizations and from local NGO activists to a far flung diaspora have been and will continue to be decisive The authors approach China and India through a strategy of convergent comparison in which they investigate temporal and spatial parallels at various critical junctures at various levels of the political system and both inside and outside the territorial confines of the nation state The intensified globalization of recent decades only heightens the need to view state initiatives against such a wider canvas *Diaspora, Development, and Democracy* Devesh Kapur, 2013-12-01 What happens to a

country when its skilled workers emigrate The first book to examine the complex economic social and political effects of emigration on India *Diaspora Development and Democracy* provides a conceptual framework for understanding the repercussions of international migration on migrants home countries Devesh Kapur finds that migration has influenced India far beyond a simplistic brain drain migration s impact greatly depends on who leaves and why The book offers new methods and empirical evidence for measuring these traits and shows how data about these characteristics link to specific outcomes For instance the positive selection of Indian migrants through education has strengthened India s democracy by creating a political space for previously excluded social groups Because older Indian elites have an exit option they are less likely to resist the loss of political power at home Education and training abroad has played an important role in facilitating the flow of expertise to India integrating the country into the world economy positively shaping how India is perceived and changing traditional conceptions of citizenship The book highlights a paradox while international migration is a cause and consequence of globalization its effects on countries of origin depend largely on factors internal to those countries A rich portrait of the Indian migrant community *Diaspora Development and Democracy* explores the complex political and economic consequences of migration for the countries migrants leave behind **Understanding the Indian Diaspora - History, Identity, and**
