Design Like You Give a Damn Architecture for Humanity (Organization), 2006 Edited by Cameron Sinclair and Kate Stohr

Design Like You Give a Damn Deborah Aaronson, 2006 Design/Build with Jersey Devil Charlie Hailey, 2016-07-19

Steve Badanes Jim Adamson and John Ringel believe an architect's job does not stop at designing a building but that it extends to constructing it as well. Now working into their fifth decade, Jersey Devil, the loose knit group they founded in 1972, bands together under this design build ethos that an architect's place is just as much on the job site as it is at the drawing board. The trio pioneered design build practice and their influence has spawned more than one hundred design build programs. Jersey Devil's process and expertise are unpacked in this Architecture Brief providing students and teachers with a toolkit for design build education. Through stories, didactic commentary and sample exercises, the Design Build complements nuts and bolts content with Jersey Devil's philosophy and perspective, allowing the book to impart practical instruction while acting as a valuable guide for navigating the elusive challenges of design build. Themes touch on socially responsible architecture, intuition and intentionality, detailing and fostering craftsmanship, group work and collaboration off the shelf components and nonstandard applications, educational reform, ethos and risk, good life and play, the politics of building and university community relations.

Design/Build in Postcolonial Contexts: A Critical Interrogation Vera Simone Bader, In diesem Buch betrachten neun Autorinnen die Lernmethode Design/Build im postkolonialen Kontext. Anhand konkreter Beispiele wird die handlungsorientierte Vorgehensweise kritisch hinterfragt und evaluiert. Dabei liegt ein Fokus auf den Auslandseinsätzen europäischer und US-amerikanischer Studierender, die in fremden Kulturen ihr frisch erworbenes Wissen aktiv einsetzen. Es werden aber auch Projekte von Studierenden aus Lateinamerika, Asien und Afrika dokumentiert und analysiert. Diese Methode als Experimentierfeld nutzen, um normative Regeln, die häufig noch heute von der Kolonisierung geprägt sind, in Frage zu stellen.

Spatial Agency: Other Ways of Doing Architecture Nishat Awan, Tatjana Schneider, Jeremy Till, 2013-09-13. This book offers the first comprehensive overview of alternative approaches to architectural practice. At a time when many commentators are noting that alternative and richer approaches to architectural practice are required if the profession is to flourish, this book provides multiple examples from across the globe of how this has been achieved and how it might be achieved in the future. Particularly pertinent in the current economic climate, this book offers the reader new approaches to architectural practice in a changing world. It makes essential reading for any architect aspiring or practicing.

Developing Disaster Resilient Housing in Vietnam: Challenges and Solutions Tuan Anh Tran, 2015-12-21. This book provides a comprehensive understanding of disaster resilient housing within the Vietnam context, particularly in the developing world generally. The book has identified the root causes of housing vulnerability, restrictions to safe housing development, concepts of disaster resilient housing, key issues, factors, implementers and building designers need to consider, and ways of achieving resilient housing outcomes in actual design projects. The design and development of

disaster resilient housing has been framed into three main themes i community consultation ii the role of built environment professionals and iii design responses for resilience To achieve these themes there is a variety of contextual and intervening conditions that need to be addressed and met to provide an enabling environment for promoting disaster resilient housing These three themes are among the most arguable issues in recent debates and discussions academically and practically regarding disaster risk reduction and safe housing development In addition this book also provides the evidence based design framework for disaster resilient housing upon which design ideas and solutions for safe and resilient housing can be generated and shaped

The Social Medicine Reader, Volume II, Third Edition Jonathan Oberlander, Mara Buchbinder, Larry R. Churchill, Sue E. Estroff, Nancy M. P. King, Barry F. Saunders, Ronald P. Strauss, Rebecca L.

Walker, 2019-05-31 The extensively updated and revised third edition of the bestselling Social Medicine Reader provides a survey of the challenging issues facing today's health care providers patients and caregivers with writings by scholars in medicine the social sciences and the humanities

Post-Western Histories of Architecture Pilar Maria Guerrieri, Marco Biraghi, 2023-06-23 This book seeks to provide an alternative post Western perspective to the history of contemporary architecture It puts forward detailed critical analyses of various areas of the world including Europe Latin America Africa China Australia India and Japan where particular movements of architecture have developed as active political acts The authors focus on a broad spectrum of countries architectures and architects that have developed a design approach closely linked to the building context The concept of context is broad and includes various economic social cultural political and natural aspects In all cases the architects selected in this book have chosen to view context as an opportunity However each architect has considered certain specific aspects of context some have been very attentive to the social context others to material aspects or typological issues and still others to aspects related to political visions or economic factors The analysis critically highlights interesting creative and respectful design approaches towards local conditions such as sustainability in Nordic Europe climate conscious design in Africa and the bottom up sensitivity of India The book's main aim is to retrace through both theoretical arguments and case studies the debate that focuses on politics and the environment Thanks to its valuable examples this book strives to make a conscious contribution to establishing a bulwark against the current flattening out processes that architecture is experiencing This book will be of relevance to researchers teachers and students interested in the history of architecture architecture and planning and postcolonial studies

Questioning Architectural Judgment Steven A. Moore, Barbara B. Wilson, 2013-07-24 The book shines light on the problem of judgment particularly in the realm of architectural technics and the codes that regulate it The struggle to define sustainability and thus judge architecture through such lenses is but one dimension of the contemporary problem of judgment By providing the reader with an inherently interdisciplinary study of a particular discipline architecture it brings to the topic lenses that challenge the too frequently unexamined assumptions of the discipline By situating architecture within a broader cultural field and using case studies to

dissect the issues discussed the book emphasizes that it is not simply a matter of designing better more efficient or more stringent codes to guide place making but a matter of reconstructing the boundaries of the systems to be coded The authors are winners of the EDRA Place Research Award 2014 for their work on the Green Alley Demonstration Project used in the book **Safe** Paola Antonelli, Museum of Modern Art (New York, N.Y.), 2005 Catalog of an exhibition held at the Museum of Modern Art New York Oct 16 2005 Jan 2 2006 *Architecture* ,2006-07 **Design Revolution** Emily Pilloton, 2009 A good long tradition Design can change the world Water Well being Energy Education Mobility Food Play Enterprise
