The Philosopher's Stone for Sustainability Yoshiki Shimomura, Koji Kimita, 2012-09-19 Industrial Product Service Systems IPS2 which is defined as an integrated industrial product and service offering that delivers value in use has expanded rapidly over the last decade IPS2 has allowed us to achieve both high added value and high productivity and has enriched our QOL by improving the performance of products and services We are now struggling with many awkward issues related to sustainability but IPS2 is expected to be the philosopher's stone for solving these issues Following the pattern of conferences held in Cranfield in 2009 Linköping in 2010 and Braunschweig in 2011 the fourth International CIRP Conference on Industrial Product Service Systems held on November 8-9 2012 in Tokyo will cover various aspects of IPS2 Topics planned for this year's conference reflect the

latest IPS2 information in both the natural sciences and humanities and include case studies from various industries IPS2 is still a relatively new field so it is important to keep track of the entire context in order to promote more cross sectional cooperation between multimodal fields and disciplines The fourth International CIRP Conference on Industrial Product Service Systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas *Advances in Energy Science and Equipment Engineering II Volume 2* Shiquan Zhou, Aragona Patty, Shiming Chen, 2017-09-19 The 2016 2nd International Conference on Energy Equipment Science and Engineering ICEESE 2016 was held on November 12-14, 2016 in Guangzhou, China ICEESE 2016 brought together innovative academics and industrial experts in the field of energy equipment science and engineering to a common forum The primary goal of the conference is to promote research and developmental activities in energy equipment science and engineering and another goal is to promote scientific information interchange between researchers, developers, engineers, students and practitioners working all around the world The conference will be held every year to make it an ideal platform for people to share views and experiences in energy equipment science and engineering and related areas This second volume of the two volume set of proceedings covers the field of Structural and Materials Sciences and Computer Simulation Computer and Electrical Engineering *Research in Education*, 1969 **Modeling and Simulation of Carbon Emission Related Issues** Wen-Hsien Tsai, 2019-08-19 Carbon emissions reached an all time high in 2018 when global carbon dioxide emissions from burning fossil fuels increased by about 2.7% after a 1.6% increase in 2017 Thus we need to pay special attention to carbon emissions and work out possible solutions if we still want to meet the targets of the Paris climate agreement This Special Issue collects 16 carbon emissions related papers including 5 that are carbon tax related and 4 energy related papers using various methods or models such as the input output model, decoupling analysis, life cycle impact analysis, LCIA, relational analysis model, generalized Divisia index model, GDIM forecasting model, three indicator allocation model, mathematical programming, real options model, multiple linear regression etc The research studies come from China, Taiwan, Brazil, Thailand and United States These researches involved various industries such as agricultural industry, transportation industry, power industry, tire industry, textile industry, wave energy industry, natural gas industry and petroleum industry Although this Special Issue does not fully solve our concerns it still provides abundant material for implementing energy conservation and carbon emissions reduction However there are still many issues regarding the problems caused by global warming that require research **NASA SP-7500** United States. National Aeronautics and Space Administration, 1982 Project Management for Building Designers and Owners, Second Edition Howard G. Birnberg, 1998-07-29 Project Management for Building Designers and Owners presents the concepts, tools and ideas to help design firms and owner/client project managers to better communicate and perform their jobs Topics include Streamlining the complexity and costs of current building design and construction Integrating the often fragmented nature of the team in designing and constructing buildings Assessing the reengineering trend of reducing

in house facilities and staff in planning coordinating and managing a project Outsourcing responsibilities to traditional engineering architectural and facilities firms as well as program and project management firms Comparing traditional design firms and specialty firms in terms of finding and keeping capable staffs project scope management fee and time pressures and a myriad of other issues Communicating effectively within this highly fragmented specialized and complex arena This edition comprehensively outlines the fundamental means to effectively manage and control a project s scope schedule and budget
