Cruikshank contextualizes and reads the work of four influential writers of prose fiction Angot Echenoz Houellebecq and Redonnet teasing out each one's response to this convergence She suggests that the recurrent fictional and cultural trope of the turning point has both aesthetic and critical potential Bringing together analyses spanning literature thought and culture she identifies and critiques the ways in which on the eve of the twenty first century different theoretical and fictional approaches confront the manipulation of crisis discourses Drawing on a long twentieth century of crisis thinking Cruikshank counters the perception that a postmodern model of perpetual crisis is culturally dominant and established French XX Bibliography, Issue #65 Sheri K. Daniel Gasol es pregunta si l'artista s'adapta a la producció institucional que sentim com a art. També qüestiona les institucions adients per exhibir produccions artístiques i com el sistema del capital i laboral afecta la creació i l'exposició d'art.

New Musical Figurations Ronald M. Radano, 2009-05-20. *New Musical Figurations* exemplifica una dramàticament nova manera de configurar el jazz i la història relacionant la biografia amb el context cultural i musical contemporani. Ronald M. Radano observa el jazz com a part de la complexa interrelació de la cultura postmoderna, una cultura que ha erodit les categories que definien el jazz i el músic de jazz. Radano aconsegueix tot això analitzant la vida creativa d'Anthony Braxton, una de les figures més emblemàtiques d'aquesta crisi. Born in 1945, Braxton is not only a virtuoso jazz saxophonist but an innovative theoretician and composer of experimental art music. His refusal to conform to the conventions of official musical culture has helped unhinge the very ideologies on which definitions of jazz, black music, popular music, and art music are founded. *New Musical Figurations* gives the richest view available of this many-sided artist. Radano examines Braxton's early years on the South Side of Chicago, whose vibrant black musical legacy inspired him to explore new avenues of expression. Here is the first detailed history of Braxton's central role in the Association for the Advancement of Creative Musicians, the principal musician-run institution of free jazz in the United States. After leaving Chicago, Braxton was active in Paris and New York, collaborating with Philip Glass, Steve Reich, Frederic Rzewski, and other composers affiliated with the experimental music movement. From 1974 to 1981, he gained renown as a popular jazz performer and recording artist. Since then, he has taught at Mills College and Wesleyan University, given lectures on his theoretical musical system, and written works for chamber groups as well as large-scale pieces. The neglect of radical, challenging figures like Braxton in standard histories of jazz, Radano argues, mutes the innovative voice of the African American musical tradition. Refreshingly free of technical jargon, *New Musical Figurations* is more than just another variation on the same jazz theme. Rather, it is an exploratory work as rich in theoretical vision as it is in historical detail.
