Digital Storytelling
Shilo T. McClean, 2008-09-26 How digital visual effects in film can be used to support storytelling a guide for scriptwriters
and students Computer generated effects are often blamed for bad Hollywood movies Yet when a critic complains that
technology swamps storytelling in a review of Van Helsing calling it an example of everything that is wrong with Hollywood
computer generated effects movies it says more about the weakness of the story than the strength of the technology In
Digital Storytelling Shilo McClean shows how digital visual effects can be a tool of storytelling in film adding narrative power
as do sound color and experimental camera angles other innovative film technologies that were once criticized for being
distractions from the story It is time she says to rethink the function of digital visual effects Effects artists say contrary to the
critics that effects always derive from story Digital effects are a part of production not post production they are becoming

part of the story development process Digital Storytelling is grounded in filmmaking the scriptwriting process in particular McClean considers crucial questions about digital visual effects whether they undermine classical storytelling structure if they always call attention to themselves whether their use is limited to certain genres and looks at contemporary films including a chapter long analysis of Steven Spielberg's use of computer generated effects and contemporary film theory to find the answers McClean argues that to consider digital visual effects as simply contributing the wow factor underestimates them They are she writes the legitimate inheritors of film storycraft *Four Screenplays* Syd Field, 2009-09-30 Yes you can write a great screenplay Let Syd Field show you how I based *Like Water for Chocolate* on what I learned in Syd's books Before I always felt structure imprisoned me but what I learned was structure really freed me to focus on the story Laura Esquivel Technology is transforming the art and craft of screenwriting How does the writer find new ways to tell a story with pictures to create a truly outstanding film Syd Field shows what works why and how in four extraordinary films *Thelma Louise* *Terminator 2* *Judgement Day* *The Silence of the Lambs* and *Dances with Wolves* Learn how Callie Khouri in her first movie script *Thelma Louise* rewrote the rules for good road movies and played against type to create a new American classic James Cameron writer director of *Terminator 2* *Judgement Day* created a sequel integrating spectacular special effects and a story line that transformed the Terminator the quintessential killing machine into a sympathetic character This is how an action film is written Ted Tally adapted Thomas Harris's chilling 350 page novel *The Silence of the Lambs* into a riveting 120 page script a lesson in the art and craft of adapting novels into film Michael Blake author of *Dances with Wolves* achieved every writer's dream as he translated his novel into an uncompromising film Learn how he used transformation as a spiritual dynamic in this work of mythic sweep Informative and utterly engrossing *Four Screenplays* belongs in every writer's library next to Syd Field's highly acclaimed companion volumes *Screenplay* *The Screenwriter's Workbook* and *Selling a Screenplay* If I were writing screenplays I would carry Syd Field around in my back pocket wherever I went Steven Bochco writer producer director *L.A.
