Diversity and Discrimination in Business Ethics, Higher Education and Society Deborah C. Poff, 2025-05-20 This book engages the reader in a critical and necessary examination of the nature and range of behaviours that comprise diversity and discrimination in business and society. Discrimination and diversity are vitally important topics in the workplace as the manifestation of discriminatory practices leads to disfunction and a lack of effectiveness and efficiency in workplace settings. The chapters in this text not only conceptualize and clarify the meanings of diversity and discrimination but also nicely unpack various debilitating features of the phenomenon and its various practices. This book is of particular interest to faculty teaching in schools of business as well as researchers in business ethics and business management. As such, it provides an excellent venue for the exploration of the various negative impacts of diversity and discrimination.

Transitioning from the Top Stephanie Brun de Pontet, 2017-11-28 How can you move most effectively from the pinnacle of business and leadership success into post-work life that energizes you and leverages your experience and your interests? This book draws on the experience of several past CEOs to address the important topic of personal continuity for family business leaders transitioning from the day-to-day leadership of their enterprise. Making this transition remains challenging for most leaders. Lack of clarity or options for

meaningful post CEO roles is a major factor in succession struggles resulting in wide reaching consequences for all stakeholders in the enterprise Here family business consultant Brun de Pontet takes an in depth look at the dynamics and challenges for leaders in transition and the systems around them to deliver insights on sources of difficulty and tips and tools for effective planning The book draws extensively on the experiences of more than a dozen former family business leader interviewees These highly driven and accomplished business leaders share stories and lessons from their own personal continuity journey as they transitioned from the top of their companies Combining these real examples with knowledge from years of consulting and research Brun de Pontet helps leaders broaden their sense of self as they look forward to a rich purpose filled next chapter in life

This introduction to the field of organizational behaviour condenses the essential topics into a tightly focused presentation. Its concise format makes it a viable alternative to a core textbook and an ideal vehicle to be combined with cases, readings, and experimental materials. The entire text has been updated. New examples have been added and the referencing of research findings has been expanded. There are two new chapters in this edition. Motivation: From Concepts to Applications provides practical applications of motivation concepts introduced in Chapter 4. A new chapter on work teams has also been added. The two chapters on organizational structure and design from the previous edition have been condensed into a single chapter and completely rewritten. The chapter on individual decision making has been rewritten to emphasise the behavioural aspects of decision making. The discussion of group decision making has been moved from the chapter on communication to the chapter on group behaviour.
