required by an instructor Flexible Regional Economic Integration in Africa Timothy Masiko, 2022-04-21 This book examines the relationship between flexible regional economic integration in the East African Community EAC through its application of variable geometry and the establishment of the African Continental Free Trade Area AfCFTA as a continent wide form of integration It uses a historical political legal and economic analysis of the processes that led to the adoption of flexible regional integration in Africa with particular regard to the EAC This takes place in the inescapable context of pan Africanism showing how regional integration efforts in Africa are based on pan Africanist ideals and how an evolution of these ideals has led to an evolution in the goals of integration With growing awareness of the weaknesses and impracticality of consensus based decision making on a global level it makes the case for the pursuit of flexibility in multilateral trade drawing lessons from the experience of the AfCFTA and blocs in other regions This book is a historical evaluation of regional economic integration efforts in Africa and it follows the path of attempts to integrate the economies on the continent from colonial times to the birth of the AfCFTA While it is a study in law it relies heavily on politics economics and history to weave together a more complete theory of economic integration based on the African experience Flexible Regional Economic Integration in Africa was awarded the 2020 SIEL Hart Prize in International Economic Law **What's Wrong with Protectionism** Pierre Lemieux, 2018-08-27 Putting tariffs on imported goods or setting other barriers to international trade can be tempting for politicians They assume that many of their constituents believe that free trade is not fair trade and that other countries aren't playing by the rules This belief makes it easy for industry leaders to demand protection for their businesses and their workers to put America first But Americans should resist the siren calls of protectionism In this highly relevant protectionism primer Pierre Lemieux shows what can happen if they don't As the author demonstrates trade between any two countries is fair for the same reasons as exchange between two individuals it is to the benefit of both Lemieux carefully refutes the arguments of those who would curtail Americans access to the benefits of international commerce from the claim that we can boost economic growth by reducing imports to the belief that free trade leads to shipping jobs overseas Yes manufacturing jobs are declining in this country and have been since the 1950s But as Lemieux points out that's in large part because Americans are making more advanced products more efficiently than their comparative advantage And this is happening as less developed countries are producing more labor intensive low tech goods that's their comparative advantage All parties to a trade benefit Lemieux shows how free trade improves the lives of American consumers especially the poor The narrow agenda of the protectionists to protect a small minority of producers at the expense of millions of their fellow Americans is the wrong path for an increasingly diverse and complex economy This concise primer shows you why **Trade Facilitation in the Multilateral Trading System** Hao Wu, 2018-07-11 Negotiations on trade facilitation were concluded at the WTO 9th Ministerial Conference in 2013 and the Agreements on Trade Facilitation TFA therefore became the first fully multilateral agreement in WTO history Since then trade facilitation

has been in the limelight on the stage of the world trading system During recent years the TFA has been consistently on the agenda of the summits of G20 G7 and APEC The Agreement has come into force and shall be implemented on a global scale As a result the WTO members shall be prepared to translate the Agreement into their domestic legislation which will involve a series of reforms in trade laws and policies There are extensive voices demanding a comprehensive expatiation on trade facilitation and the TFA It is essential to systematically delve into the genesis of trade facilitation revisit the course where the TFA came into being and analyse the well turned legalese of the TFA This book meets this demand This book is path breaking in these aspects it expounds on the rationales for trade facilitation and the significance of constituting an international accord on trade facilitation it restores the one century track of the international community s talks on trade facilitation from the times of the League of Nations to the WTO era it reveals how the WTO negotiating mechanisms enabled the TFA to be nailed down which would be enlightening for trade diplomats engaged in other WTO negotiations and it provides an in depth commentary on the TFA articles which will help stakeholders more accurately understand and implement the Agreement This book will be especially valuable for government officials and policy makers trade practitioners lawyers advisers and scholars interested in international economic law WTO law international trade international relations and international development studies
