French believed the proletariat or the working class was enslaved by the bourgeoisie or ruling class Despite being a small percentage of the population the bourgeoisie controlled the vast majority of the world's wealth and all means of production But what if all the workers of the world got together could they oust the ruling class Within a few decades of his death Marx's ideas swept across Europe and dramatically influenced the events of the 20th century Millions perished at the hands of Russian dictator Joseph Stalin and other communist leaders who followed their interpretations of Marx's philosophy to its unintended ends But long before Stalin assumed power or the Iron Curtain fell across Europe there was a boy born into a German middle class family in 1818 You will learn about Marx's marriage to a young baroness his seven children and his longstanding relationship with fellow philosopher Friedrich Engels one of the few people who could decipher Marx's messy handwriting When you are done reading this book you may not exclaim Workers of the world unite as Marx famously did at the end of The Communist Manifesto but you'll understand more of what he meant by that and more about the man behind the statement 1 4 2017 12 00 00 AM Karl Marx Isaiah Berlin, 1978 First published over fifty years ago Isaiah Berlin's compelling portrait of the father of socialism has long been considered a classic of modern scholarship and the best short account written of Marx's life and thought It provides a penetrating lucid and comprehensive introduction to Marx as theorist of the socialist revolution illuminating his personality and ideas and concentrating on those which have historically formed the central core of Marxism as a theory and practice Berlin goes on to present an account of Marx's life as one of the most influential and incendiary social philosophers of the twentieth century and depicts the social and political atmosphere in which Marx wrote This edition includes a new introduction by Alan Ryan which traces the place of Berlin's Marx from its pre World War II publication to the present and elucidates why Berlin's portrait in the midst of voluminous writings about Marx remains the classic account of the personal and political side of this monumental figure
