La Sociedad Global Noam Chomsky:

Latin American Perspectives on Globalization Mario Sáenz, 2002-10-23 From the most prominent thinkers in Latin American philosophy literature politics and social science comes a challenge to conventional theories of globalization The contributors to this volume imagine a discourse in which revolution is defined not as a temporalized march of progress or takeover of state power but as a movement for local control that upholds standards of material conditions for human dignity Essays on identity equality and ethics propose models of transcultural and intercultural relations that replace center periphery or world systems approaches they impel us to focus on building dialogic relationships rather than on accommodating universalized paradigms Ultimately suggesting a reconstruction of the world in terms of the interests of one of the peripheral regions of the world Latin American Perspectives on Globalization argues with cogency and urgency that no one within contemporary globalization debates can afford to ignore the Latin American philosophical tradition **Mundo global, guerra global?** Atilio Borón, 2002 **Criminology and Criminal Policy Movements** Eugenio Raul Zaffaroni, Edmundo Oliveira, 2013-04-03 These studies recover the historical roots of thinking that are in conflict with and critical of present day tendencies Criminological theory over the last few decades has oscillated between extremes on one side there are calls for increasing the state exercise of punitive power as the only means of providing security in the face of both urban and international crime while the other side highlights the need for reducing the exercise of punitive power because of the paradoxical effects that it produces Useful for academics practitioners professionals and students this book will certainly contribute to a wider awareness in crime prevention and criminal justice **El nuevo proyecto histórico. Fin del capitalismo global.** Heinz Dieterich, 1999 **Noam Chomsky habla de América Latina y México** Noam Chomsky, 1998 Noam Chomsky 1928 uno de los intelectuales contemporáneos más importantes y significativos Su pensamiento en términos de originalidad y contundencia ha influido profundamente en la antropología psicología filosofía y las ciencias políticas actuales Desde 1976 es profesor del Massachusetts Institute of Technology MIT Sus numerosos ensayos políticos son vehemente implacables de análisis histórico político que siempre conmueven por su fuerza para develar verdades y mentiras de la falsificación sistémica de hechos crímenes e infamias de un mundo constituido para garantizar un estado de bienestar para los ricos con una ideología de la seguridad nacional para el control de la población a partir del consenso de ciertas elites el mercado y los intereses económicos En esta obra ofrece sus reflexiones relacionadas con temas de América Latina el descubrimiento del continente el intervencionismo estadounidense el Tratado de Libre Comercio la situación actual de Cuba entre muchos otros Latin America at the Crossroads Roberto Regalado Álvarez, 2007 Cuban intellectual Roberto Regalado provides a critical analysis of the issues facing Latin America today and the significance of the recent election of leftist governments in several countries He examines the political crises and the emerging social movements on the continent that are spearheading international resistance to neo liberalism from the water struggles in Bolivia to the landless movement

in Brazil and considers alternative options for development **El Fin del Capitalismo Global** Heinz Dieterich,2000
