*A Mending at the Edge* Jane Kirkpatrick, 2008-04-15 Of all the things I left in Willapa hope is what I missed the most So begins this story of one woman's restoration from personal grief to the meaning of community Based on the life of German American Emma Wagner Giesy the only woman sent to the Oregon Territory in the 1850s to help found a communal society award winning author Jane Kirkpatrick shows how landscape relationships spirituality and artistry poignantly reflect a woman's desire to weave a unique and meaningful legacy from the threads of an ordinary life While set in the historical past it's a story for our own time answering the question Can threads of an isolated life weave a legacy of purpose in community

Death of the Good Doctor -- Lessons from the Heart of the AIDS Epidemic Kate Scannell, 1999-12-01 DEATH OF THE GOOD DOCTOR LESSONS FROM THE HEART OF THE AIDS EPIDEMIC A woman physician's memoir Kate Scannell MD abandoned her academic career in 1985 expecting to enter an ordinary medical practice in Northern California Instead the thirty two year old physician found herself assigned to an Alameda county hospital's AIDS ward where much of the medicine she had studied over many difficult years was rendered irrelevant Working with AIDS patients nearly all of whom were dying Scannell discovered the inadequacy of the good doctor who battles illness to keep patients alive By embracing her patients unique needs and stories she reached an expanded understanding of her patients and of herself as a physician Death of the Good Doctor richly chronicles the intimacy of Scannell's relationships with her patients through whom the vast complexities of the AIDS epidemic are uniquely focused It is through these beautiful often difficult and sometimes humorous portraits that the woman and the physician discover each other Acclaim for Death of the Good Doctor Lessons from the Heart of the AIDS Epidemic This haunting memoir is an important addition to the canon of AIDS literature Scannell writes beautifully and with an insight that escapes most physicians Abraham Verghese author of *My Own Country* and *Cutting for Stone* Kate Scannell is the rare doctor who has been transformed by her patients In this irresistible informative and enormously moving book she tells us not only her own story but theirs Gloria Steinem When Kate Scannell began work with AIDS patients in 1985 her idea of a good doctor was one who saved lives not lost them one who used state of the art technological intervention to battle disease no matter the cost Now in an enormously moving thoughtful and compassionate memoir she recounts how she discarded her traditional medical training and learned how to rely on her own sensibilities The individuals that she met on the ward she writes shook me stunned me alarmed me twisted me righted me tricked me and amazed me Their stories do the same for us and some even make us laugh Minneapolis Star Tribune In a series of essays she offers haunting portraits of the men and women she served and of herself as she learns to recognize and grapple with her own anger grief comfort and joy Scannell's writing is direct at times deceptively simple and often moving This is a rich collection of snapshots not only of people with AIDS but of the journey of their physician Scannell's need to write the stories of her patients is also shadowed by her knowledge that before she finished writing these stories she herself had been diagnosed with cancer Felice Aull Medical

Humanities New York University Somewhere in the Introduction I was hooked and well before the end of the first chapter I was thanking heaven or at least my editor for my good luck to experience the remarkable characters who people this history of the early years of the plague Scannell is a writer The stories are stunning the lives they tell memorable and important Scannell knows just when to insert her own feelings and experiences in the narrative DOTGD is a remarkable book part history part memoir that reads with the grace and elegance of good fiction Scannell writes with wit and sensitivity Bay Area Reporter Her storytelling style allows the reader to put a face on the epidemic and give meaning to the statistics Journal of the Association of Nurses in AIDS Care Publication Originally published 1999 in paperback by Cleis Press then out of print Rights reverted to the author in 2010 when the book was released in electronic format It was back in print 2012 with photos added in 2018

**Learning to Live Again in a New World** Marlene Anderson, 2020-01-28 Loss brings with it many layers of grief that need to be addressed Healing from losses requires more than just talking about our pain it involves working through the twists and turns of conflicting emotions and confronting questions that often have no satisfactory answers It is reassembling the pieces of life that have been shattered by assumptions and expectations in order to create a new beginning Within the process we begin to heal and recover But as we close one chapter of life we need tools and information to begin a new chapter and make that transition from what was to what is now It requires challenging old assumptions and creating a new identity and road map for life going forward
