The Pursuit of the Sacred John Chitakure, 2016-03-03 Globalization has taken the world by storm and has facilitated the

unprecedented migrations of the peoples of this world Whether we like it or not we will meet foreigners in our communities schools universities buses and other public places But when people migrate they take their religions with them If people of different religious traditions are to live side by side amicably interfaith dialogue becomes imperative But for people to be able to speak about their own religions with enlightenment and listen to other people s religious beliefs with respect they must have some basic knowledge of how faiths and believers operate because for some people religion is inseparably intertwined with their economics politics and everyday lives This book clearly and concisely introduces religious studies to the reader It makes a strong case for the quest and study of world religions and explores the challenges controversies and methodological issues in the study of religions It also explores other pertinent religious issues such as beliefs rituals myths sacredness morality the problem of evil and interreligious dialogue Although written from a classroom perspective this book can be useful to any reader who would like to acquire knowledge of religious issues **Everyday Wisdom** Hans

Studying Religion and Disability Emily O. Gravett,2025-08-20 Studying Religion and Disability introduces students to the many compelling and influential intersections between religion and disability The early chapters offer introductions to the two fields defining key terms and definitions tracing their origins and evolutions while also demonstrating some of the biases and baggage they bring The organization of the later chapters is inspired by the formal phenomenological or resemblance approach to understanding religion exposing students to different dimensions that all religions seem to have in common such as practices or places regardless of their specific content Featuring examples from a variety of religions this book considers

how these religions have intersected with a variety of disabilities across space and time This book provokes thought and discussion around important questions including how different disabilities are perceived represented and constructed in different dimensions of religion how and why people with disabilities engage with religion potential or documented barriers that religions present to disabled people and opportunities and insights that result when each is viewed through the lens of the other It will be essential reading for all students of Religion and Disability
