Iranian Tigers At War:

Iranian Tigers at War Babak Taghvaei, 2015 The development of the F 5 lightweight supersonic fighter in the mid 1950s was almost a gamble for the Northrop Corporation but ultimately resulted in one of most commercially successful combat aircraft in modern history Iran was one of its major export customers yet the long and often violent history of deployment of the F 5 in that country has largely escaped attention of historians No less than 309 aircraft of five major variants of the jet the F 5A F 5B RF 5A F 5E and F 5F have provided the backbone of the front line strength of the Iranian Air Force since the mid 1960s Additional examples were clandestinely purchased from Ethiopia and Vietnam in the 1980s The type bore the brunt of combat operations during the long war with Iraq 1980 1988 and remains a mainstay of the Islamic Republic of Iran Air Force as of today This breathtaking account provides a detailed chronological history of the F 5 in combat service in Iran a history dominated by long range strikes against some of best defended targets inside Iraq and by thousands of dramatic close air support and reconnaissance sorties but also fierce air combats against the then most modern fighter types in Iraqi service including the MiG 23s and MiG 25s It is completed with practically unknown stories of their combat presence in Pakistan Afghanistan and the war against drug traffickers in recent years Good though the F 5 has been the advances of domestic Iranian aircraft building companies have resulted in attempts to continue the F 5 line with further redesign and developments resulting in a number of indigenous variants Combined this means that the diverse and involved story about one of most interesting military aircraft of modern times is still far from over The author s detailed text is fully supported by an extensive selection of photographs and color profiles Middle East War following on from our highly successful Africa War series Middle East War replicates the same format concise incisive text rare images and high quality color artwork providing fresh accounts of both well known and more esoteric aspects of conflict in this part of the world since 1945

Iran at War Kaveh Farrokh, 2011-12-20 Following on from his award winning book on the history of ancient Persia Kaveh Farrokh goes on to examine Iran s wartime history from the Safavid dynasty of the 16th and 17th century through to the 1979 Revolution and beyond He shows how the early military successes were followed by centuries of defeat as the external influences of nations like Russia and Britain began to shape the internal history of Iran before unraveling the complex violent 20th century military history of the country which encompasses two world wars regional movements foreign intervention anti government revolts conflicts on the Soviet border a revolution and an eight year war with Iraq Illustrated with contemporary illustrations and photographs this book provides an unparalleled investigation into the bloody martial history of Iran

[The Iran-Iraq War](#) Pierre Razoux, 2015-11-03 From 1980 to 1988 Iran and Iraq fought the longest conventional war of the twentieth century The tragedies included the slaughter of child soldiers the use of chemical weapons the striking of civilian shipping in the Gulf and the destruction of cities The Iran Iraq War offers an unflinching look at a conflict seared into the region s collective memory but little understood in the West Pierre Razoux shows why this war

remains central to understanding Middle Eastern geopolitics from the deep rooted distrust between Sunni and Shia Muslims to Iran's obsession with nuclear power to the continuing struggles in Iraq. He provides invaluable keys to decipher Iran's behavior and internal struggle today. Razoux's account is based on unpublished military archives, oral histories and interviews as well as audio recordings seized by the U.S. Army detailing Saddam Hussein's debates with his generals. Tracing the war's shifting strategies and political dynamics, military operations, the jockeying of opposition forces within each regime, the impact on oil production so essential to both countries, Razoux also looks at the international picture. From the United States and Soviet Union to Israel, Europe, China and the Arab powers, many nations meddled in this conflict, supporting one side or the other and sometimes switching allegiances. The Iran Iraq War answers questions that have puzzled historians: Why did Saddam embark on this expensive, ultimately fruitless conflict? Why did the war last eight years when it could have ended in months? Who, if anyone, was the true winner when so much was lost?

Iran Iraq Naval War Tom Cooper, E.R. Hooton, Farzin Nadimi, Milos Sipos, 2024-07-04. Draws upon unique access to Iranian naval archives and examines in detail the naval war between 1981 and early 1984. Well away from the major battlefields on the ground in the Iran Iraq War and hidden from the gaze of the curious public, the navies and air forces of the two belligerents contested the waters of the Persian or Arabian Gulf. This naval aspect of the war still remains largely unknown and hugely underreported in the West, other than in terms of the Tanker War and the impact upon international shipping. Yet this was a war in which Iran and Iraq pitted the best technologies available to them, bought from the world's leading arms manufacturers and exporters, against each other's vital oil production and exports and against vital maritime lifelines. Iran, in particular, relied upon caravans of shipping to import raw materials, provide logistic support to the land war and to export oil-based products. Iraq would make the first and by far most extensive combat use of the famous Exocet anti-ship missile long before its first claimed use by Argentina in the Falklands/Malvinas War and would make extensive use of French-sourced electronic warfare capabilities and Soviet anti-radiation missiles. Iran would make the first combat use of the F-14 Tomcat and its associated AIM-54 Phoenix air-to-air missile and would be the first to launch the RGM-84 Harpoon surface-to-surface missile in anger. Far from being a backwater, this was the testing ground for many cutting-edge technologies. Volume 2 of *Iran Iraq Naval War* draws upon unique access to Iranian naval archives and examines in detail the naval war between 1981 and early 1984 as Iraq struggled to defeat Iran's highly organized maritime caravans, how each side experienced successes and failures in the employment of new technologies and their efforts to counter these. This book is illustrated throughout with original photographs, many in color and never previously published in the West, and with specially commissioned color maps and the War series signature color artworks showing the ships and aircraft employed in this war.

Flashpoints Michael Napier, 2022-06-09. From acclaimed aviation historian Michael Napier, this is a highly illustrated survey of the aerial fighting in the flashpoints of the Cold War. The Cold War years were a period of unprecedented peace in Europe, yet they also saw a number of localised but nonetheless

very intense wars throughout the wider world in which air power played a vital role Flashpoints describes eight of these Cold War conflicts the Suez Crisis of 1956 the Congo Crisis of 1960 65 the Indo Pakistan Wars of 1965 and 1971 the Arab Israeli Wars of 1967 and 1973 the Falklands War of 1982 and the Iran Iraq War of 1980 88 In all of them both sides had a credible air force equipped with modern types and air power shaped the final outcome Acclaimed aviation historian Michael Napier details the wide range of aircraft types used and the development of tactics over the period The postwar years saw a revolution in aviation technology and design particularly in the fields of missile development and electronic warfare and these conflicts saw some of the most modern technology that the NATO and Warsaw Pact forces deployed alongside some relatively obscure aircraft types such as the Westland Wyvern and the Folland Gnat Highly illustrated with over 240 images and maps Flashpoints is an authoritative account of the most important air wars of the Cold War

Iran-Iraq War in the Air, 1980-1988 Tom Cooper, Farzad Bishop, 2002 This book focuses on the role of the air power in the Iran Iraq War of 1980 1988 The authors made full use of extensive research eyewitness accounts interviews with dozens of people directly involved as well as recently declassified documents from around the world which are published here for the first time describes and analyzes both the development of the Iranian and the Iraqi air forces their involvement in combat operations while simultaneously discussing their organization and capabilities and detailing their equipment to detail Edited from publisher's web site

Iran and China Shirzad Azad, 2017-02-09 Because of their historical roles and politico economic significance in contemporary international politics Iran and China have perpetually been in the crosshairs of both policy circles and interested observers in almost every other part of the world Crucial interactions touching upon any aspect of Tehran Beijing ties from diplomatic and military links to economic and cultural connections have especially been in the limelight of such riveting inquisitiveness which has often given rise to a flurry of rash comments sensational claims and impetuous conclusions But a detached probe into critical developments involving Iran and China however elucidates this rather inconvenient eventuality that the relations between the two important countries are not essentially based on pivotal principles and clear cut commitments nor do their ties really rest on tenuous thoughts and flimsy foundations devoid of any common interests in short term or well conceived objectives in long run In the same way the two political systems in Tehran and Beijing may ultimately end up each contributing to a separate pole of power regionally and internationally rather than moving faithfully and steadfastly in lockstep with what it requires them to truly materialize their more recent aspiration and design to move toward achieving a very close strategic partnership

Confronting Iran Ali Ansari, 2007-03-16 Iran refuses to relent in developing nuclear technology despite U N sanctions Rumors persist that Israel is drawing up plans for military strikes Neither the emboldened Iranian president Mahmoud Ahmadinejad nor the embattled President Bush has relented in his war of words How did we get here Iran expert Ali Ansari sets the current crisis in the context of a long history of mutual antagonism From the overthrow of Mosaddeq in 1953 to the hostage crisis in 1979 and more recently the Gulf War and the War in Iraq both Iranian and American politicians have forged conflicting narratives about an evil empire lying half a world away resulting in a mutual mistrust that may ultimately lead to war

Nationalism and War John Hutchinson, 2017 This volume examines the changing relationship between warfare its changing forms and the rise of the nation as a political category

Defending Arabia J.E. Peterson, 2016-08-05 The defence of the Gulf has been a vital strategic concern for close on 100 years The British first became involved in the Gulf to protect the sea routes to India and with the development of international air routes the Gulf became a crucial staging post This book first published in 1986 surveys the strategic issues in the defence of the Gulf from the earliest British involvement up to the Iraq Iran war It examines the British retreat from the Gulf and the imperial vestiges that were left behind It considers the way in which American interests in the Gulf came to replace British interests and it

analyses how American foreign policy has responded to this additional responsibility The book also investigates the regional concerns of Gulf security and the intra regional conflicts that have erupted in the Iraq Iran war **A Strategic Analysis of the Gulf War** William O. Staudenmaier,1982 This memorandum examines the Iran Iraq War from a strategic perspective to determine its causes to analyze the military strategy and events of the war in order to shed light on significant tactical and logistical developments and to derive tentative conclusions regarding the strategic importance of the Gulf War The author concludes that had Saddam Hussein properly evaluated the conflicting demands of his political objectives and security policy on his strategic concept he would probably have abandoned the entire enterprise Author **Iran's Reconstruction Jihad** Eric Lob,2020-02-27 The first full length study to examine the significance of the critical but neglected Iranian organization and ministry Reconstruction Jihad ***War and Gender*** Joshua S. Goldstein,2003-07-17 Gender roles are nowhere more prominent than in war Yet contentious debates and the scattering of scholarship across academic disciplines have obscured understanding of how gender affects war and vice versa In this authoritative and lively review of our state of knowledge Joshua Goldstein assesses the possible explanations for the near total exclusion of women from combat forces through history and across cultures Topics covered include the history of women who did fight and fought well the complex role of testosterone in men s social behaviours and the construction of masculinity and femininity in the shadow of war Goldstein concludes that killing in war does not come naturally for either gender and that gender norms often shape men women and children to the needs of the war system Illustrated with photographs drawings and graphics and drawing from scholarship spanning six academic disciplines this book provides a unique study of a fascinating issue **The War Against the Terror Masters** Michael A. Ledeen,2007-04-01 The War Against the Terror Masters is a must read guide to the terrorist crisis Michael A Ledeen explains in startling detail how and why the United States was so unprepared for the September 11th catastrophe the nature of the terror network we are fighting including the state sponsors of that network the role of radical Islam and the enemy collaboration of some of our traditional Middle Eastern allies and most convincingly what we must do to win the war The War Against the Terror Masters examines the two sides of the war the rise of the international terror network and the past and current efforts of our intelligence services to destroy the terror masters in the U S and overseas Ledeen s new book also visits every country in the Near East and describes the terrorist cancers in each Among many revelations that will attract wide attention How the terror network survived the loss of its main sponsor the Soviet Union How the FBI learned from a KGB defector twenty years before Osama s bin Laden s murderous assault of the existence of Arab terrorist sleeper networks inside the United States How moralistic guidelines straight jacketed the FBI from even collecting a file of newspaper clippings on known terror groups operating in America How the internal culture of the CIA and severe limitations on its ability to operate blinded us to the growth of terror networks And much more **Andre Gunder Frank and Global Development** Patrick Manning,Barry K.
