Soul Jazz Guitar is a collection of Randy Johnston's tunes and solos specifically designed for the intermediate student Rather than merely transcribing solos from his CDs he plays material at a reasonable tempo specifically with the student in mind There are tunes Downtime the Philadelphians and Rolling at the Summit that appear on his commercial CDs but included here are versions that are new and totally unique to this project There are also some improvisations on some familiar standard progressions to help the student deal with these changes when he or she encounters them at jam sessions etc Randy has tried to present his take on the Jazz language as clearly and faithfully as possible to make the solos easy to learn

He hopes that this will lead the student not just to imitation but also to develop his or her own approach to these progressions just as he developed his own approach from listening to the playing of his role models over the years *Kurt Rosenwinkel - Star of Jupiter* Kurt Rosenwinkel, Dennis Koch, 2019-11-06 This book includes Dennis Koch's transcriptions of solo improvisations from Kurt Rosenwinkel's 2012 album *Star of Jupiter*. Koch provides insight into Rosenwinkel's techniques and concepts giving the player perspective on the artist's signature improvisational approach. Each solo is presented in standard notation and guitar tablature with chord symbols matching Rosenwinkel's original lead sheets and a one page discussion of the solo's notable features and techniques. The tablature represents the most logical fingering for each phrase based on articulation, tone and what comes before and after it. [The Teaching of Instrumental Music](#) Richard J.
