Muslim Religious Authority in Central Eurasia Ron Sela, Paolo Sartori, Devin DeWeese, 2022-11-21 Thirty years after the fall of Soviet power we are beginning to understand that the experience of Muslims in the USSR continued patterns of adaptation and negotiation known from Muslim history in the lands that became the Soviet Union and in other regions as well we can also now understand that the long history of Muslims situating religious authority locally in the various regions that came under Soviet rule in fact continued through the Soviet era into post Soviet times The present volume is intended to historicize the question of religious authority in Muslim Central Eurasia through historical and anthropological case studies about the exercise negotiation or institutionalization of authority from the nineteenth to the early twenty first century it thus seeks to frame Islamic religious history in the areas shaped by Russian and Soviet rule in terms of issues relevant to Muslims themselves as Muslims rather than solely in terms of questions of colonial rule Contributors are Sergei Abashin Ulfat Abdurasulov Bakhtiyar Babajanov Devin DeWeese Allen J Frank Benjamin Gatling Agn s Kefeli Paolo Sartori Wendell Schwab Pavel Shabley Shamil Shikhaliev and William A Wood

Dictionary of Islam Thomas Patrick Hughes,1896 *Magic and Divination in Early Islam* Emilie Savage-Smith,2021-01-20

Magic and divination in early Islam encompassed a wide range of practices including belief in jinn warding off the evil eye the production of amulets and other magical equipment conjuring wonder working dream interpretation predicting the weather casting lots astrology and physiognomy The ten studies here are concerned with the pre Islamic antecedents of such practices and with the theory of magic in healing the nature and use of amulets and their decipherment the arts of astrometeorology and geomancy the refutation of astrology and the role of the astrologer in society Some of the studies are highly illustrated some long out of print some revised or composed for this volume and one translated into English for the first time These fundamental investigations together with the introductory bibliographic essay are intended as a guide to the concepts terminology and basic scholarly literature of an important but often overlooked aspect of classical Islamic culture

The World of Angels Malaikah & Demon Jinn in Islam Religion Muhammad Vandestra,2017-09-14 In common folklore angels or malaikah are thought of as good forces of nature hologram images or illusions Western iconography sometimes depicts angels as fat cherubic babies or handsome young men or women with a halo surrounding their head In Islamic doctrine they are real created beings who will eventually suffer death but are generally hidden from our senses They are not divine or semi divine and they are not God s associates running different districts of the universe Also they are not objects to be worshipped or prayed to as they do not deliver our prayers to God They all submit to God and carry out His commands In the Islamic worldview there are no fallen angels they are not divided into good and evil angels Human beings do not become angels after death Satan is not a fallen angel but is one of the jinn demon a creation of God parallel to human beings and angels Angels were created from light before human beings were created and thus their graphic or symbolic representation in Islamic art is rare Nevertheless they are generally beautiful beings with wings as described in Muslim scripture The Arabic word Jinn is from the verb Janna and means to hide or conceal The Jinn or Demon are so called because they conceal themselves from people s sight The words janeen foetus and mijann shield come from the same root Jinn or demon as the name suggests are normally invisible to humans The jinn are part of God s creation They were created from fire before the creation of Adam and humankind And indeed We created man from dried sounding clay of altered mud And the jinn Demon We created aforetime from the smokeless flame of fire Quran 15 26 27 According to the traditions of Prophet Muhammad the angels were created from light the jinn from fire and humankind from what has been described to you meaning clay God created the angels jinn and humankind for no other purpose then to worship Him I did not create the Jinn and mankind except to worship Me Quran 51 56 Jinn exist in our world but they live on their own Jinn have their own distinct nature and features and they generally remain hidden from humankind Jinn and humans do have some common traits the most important of which is free will and with it the ability to choose between good and evil right and wrong The jinn eat and drink they marry have children and die **The Islamic Shield** Elie Elhadj,2006 While politicians and media pundits debate the

success of U S attempts to instill a democratic government in Iraq author and social scientist Elie Elhadj Ph D explains why thoughts of a democratic Arab Muslim nation are nothing but fantasy Arab people are characterized by obedience to a hierarchical authority Syrian born Elhadj states Western style democracy can never fill this cultural mandate Elhadj explains how Muslim Arab political and religious leaders raise the tenets of Islam in a shield against democracy in order to protect their power Constant preaching by Islam s religious leaders instructing Muslims to blindly obey their leaders has created an attitude of political quietism in regard to the tyranny of Arab rulers and ambivalence towards democracy Elhadj says in his book Using Syria and Saudi Arabia as the archetypal Arab governments The Islamic Shield outlines the numerous reasons why genuine democratic reforms are not likely to emerge in Arab countries for a very long time Instead Elhadj proposes that a benevolent dictatorship may be a more hopeful and realistic expectation especially since democratic elections are likely to result in the election of a theocratic dictator rather than a secular democratic one A benevolent dictatorship would fulfill the goal of reducing Arab rulers cruelty which fans the flame of Islamic extremism and Jihadism he states Jihadism and its causes are examined in detail by Elhadj He makes the case that Jihadist terrorism is fueled by the oppression and frustration of the Arab masses that results not only from tyrannical Arab rule but also from the perception of biased American policies in the Middle East Combined with the growing influence from extremist factions within Islam these oppressions form a vicious cycle of violent confrontation Elhadj says Islamist extremism alone does not cause terrorism Elhadj states What Islamist extremism does is to turn political frustrations into religious crusades The United States may even have created a set back for themselves in the effort to democratize the Middle East Elhadj says As the United States deposed the Arab World s most secular regime in Iraq a theocratic leadership aligned to Tehran emerged with potentially far reaching regional political and religious consequences
